No other alteration to the plant items is permitted.

#### 3. Conditions

3.3 Prior to re-energisation of the circuit, each replaced earth screw and washer arrangement is to be inspected for deficiencies in ingress protection (IP rating) into the coupler housing and continuity from coupling housing to earth circuit is to be verified.

3.4 A list is to be compiled and maintained of any bolted couplers of a kind identified in clause 2 that are in service at the mine and that have not been upgraded with copper washers.

3.5 A copy of this exemption shall be provided to the site check inspector for the mine.

Declaration of Significantly Contaminated Land  
Section 11 of the Contaminated Land  
Management Act 1997

Declaration Number 20101114; Area Number 3251

THE Environment Protection Authority EPA declares the following land to be significantly contaminated land under the Contaminated Land Management Act 1997 "the Act":

#### 1. Land to which this declaration applies "the site"

This declaration applies to 61 Turrella Street, Turrella NSW 2205 described as Lot 1 in Deposited Plan 563180, in the local government area of Rockdale City Council. A map of the site is available for inspection at the offices of NSW Office of Environment and Heritage, Department of Premier and Cabinet, Level 15, 59 Goulburn Street, Sydney NSW.

#### 2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with the following substances "the contaminants":

- Chlorinated solvents tetrachloroethene, trichloroethene, cis-1,2-dichloroethene and dichloromethane.
- Petroleum hydrocarbons TPH C6-C9 and C10-C36.

#### 3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in section 12 of the Act and for the following reasons has determined that the land is contaminated and that the contamination is significant enough to warrant regulation under the Act:

- Groundwater at the site is contaminated with high concentrations of chlorinated solvents and petroleum hydrocarbons exceeding human health and ecological guideline criteria.
- Contaminated groundwater may be migrating offsite where there is the potential for exposure to occur.

#### 4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for

the site to the EPA. If the proposal satisfies the requirements of section 17 of the Act the EPA may agree not to issue a management order to the person or persons bringing the proposal.

#### 5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager, Contaminated Sites

Department of Premier and Cabinet  
PO Box A290

NSW Office of Environment and Heritage,  
Department of Premier and Cabinet

#### NOTE:

##### Management order may follow

If management of the site or part of the site is required, the EPA may issue a management order under section 14 of the Act.

##### Amendment/Repeal

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal section 44 of the Act.

##### Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

##### Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to section 149 2 of the Environmental Planning and Assessment Act that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the section 149 2 certificate is no longer required.

##### Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.
