SCHEDULE “C”

Site Specific Exemptions

1. Pest management activities, vegetation operation management provided such works do not entail excavation below the depth of the existing topsoil and excavation does not affect the fabric or significance of archaeological remains. Such activities may include pruning of trees, weed and feral animal/insect eradication, spraying, lawn mowing, cultivation (excluding commercial cultivation and tree planting), fertilising and removal of dangerous trees. Dangerous trees are to be cut off at the base. Stumps are to be left to decay naturally or ground down.
2. Construction and removal of raised garden beds provided such works do not entail excavation below the depth of the existing topsoil and excavation does not affect the fabric or significance of archaeological remains.

3. Excavation or disturbance of land of the kind specified below does not require approval under subsection 57 (1) of the Heritage Act 1977, provided that the Director-General is satisfied that the criteria in (a), (b) or (c) have been met and the person proposing to undertake the excavation or disturbance of the land has received a notice advising that the Director-General is satisfied that:
- (a) an archaeological assessment, zoning plan or management plan has been prepared in accordance with Guidelines published by the Heritage Council of NSW which indicates that any relics in the land are unlikely to have State or local heritage significance; or
 - (b) disturbance of land will have a minor impact on archaeological relics including the testing of land to verify the existence of relics without destroying or removing them; or
 - (c) a statement describing the proposed excavation demonstrates that evidence relating to the history or nature of the site, such as its level of disturbance indicates that site has little or no archaeological research potential.

Excavation or disturbance of land of the kind specified below does not require approval under subsection 57 (1) of the Act:

- (a) the excavation or disturbance of land is for the purpose of exposing underground utility services infrastructure which occurs within an existing service trench and will not affect any other relics;
 - (b) the excavation or disturbance of land is to carry out inspections or emergency maintenance or repair on underground utility services and due care is taken to avoid effects on any other relics;
 - (c) the excavation or disturbance of land is to maintain, repair or replace underground utility services to buildings which will not affect any other relics;
 - (d) the excavation or disturbance of land is to maintain or repair the foundations of an existing building which will not affect any associated relics;
 - (e) the excavation or disturbance of land is to expose survey marks for use in conducting a land survey.
- A person proposing to excavate or disturb land in the manner described in paragraph 1 must write to the Director-General and describe the proposed excavation or disturbance of land and set out why it satisfies the criteria set out in paragraph 1. If the Director-General is satisfied that the proposed development meets the criteria set out in paragraph 1 (a), (b) or (c) the Director-General shall notify the applicant.
4. Maintenance and cleaning of buildings to retain its condition provided such works do not: negatively impact on fabric of heritage significance.
5. Repairs to buildings provided repair work does not: negatively impact on fabric of heritage significance or entail excavation below the depth of the existing topsoil.

FISHERIES MANAGEMENT ACT 1994

ERRATUM

THE following notice published in the *New South Wales Government Gazette* No. 28, dated 18 March 2011, Folio 2066, under the heading “FISHERIES MANAGEMENT ACT 1994 Commercial Fishing Minimum Size Limit for Pipsis” was published with the wrong commencement date. The following notice replaces that in full. The gazettal date remains the same.

FISHERIES MANAGEMENT ACT 1994

Section 8 Notification – Fishing Closure

Commercial Fishing Minimum Size Limit for Pipsis

I, BILL TALBOT, Acting Principal Director, Fisheries & Compliance, with the delegated authority of the Minister for Primary Industries and the Director-General of the

Department of Industry and Investment pursuant to sections 227 and 228 of the Fisheries Management Act 1994 (“the Act”), and pursuant to section 8 of the Act do by this notification, prohibit the taking of pipsis (*Donax deltoides*), by holders of a hand gathering endorsement in the Estuary General Fishery, by the method of hand picking, in all waters, except when the overall length of the pipi is 4cm or greater (measured along its longest axis).

In this fishing closure:

Hand gathering endorsement has the same meaning as in clause 6 of the Fisheries Management (Estuary General Share Management Plan) Regulation 2006.

Estuary General Fishery means the share management fishery of that name, as described in Schedule 1 to the Act.

The provisions of this fishing closure in respect of hand gathering endorsement holders in the Estuary General Fishery have effect despite any provisions in the Fisheries Management (Estuary General Share Management Plan) Regulation 2006.

This fishing closure is effective from 2 June 2011 for a period of five (5) years unless sooner amended or revoked.

Dated this 14th day of March 2011.

ROAD TRANSPORT (GENERAL) ACT 2005

Ministerial Declaration (Bunnerong Road, Local Destination Exemption) Order 2011

I, David Borger, Minister for Roads, pursuant to section 16 of the Road Transport (General) Act 2005, make the following Order.

Dated this 23rd day of March 2011.

DAVID BORGER, M.P.
Minister for Roads

1. Citation

This Order is the Ministerial Declaration (Bunnerong Road, Local Destination Exemption) Order 2011.

2. Commencement

This Order takes effect on and from the date of publication in the NSW Government Gazette.

3. Effect

This Order remains in effect until revoked.

4. Definitions

“Heavy vehicle” means a vehicle in excess of 12.5 metres in length.

5. Application

This Order applies to the driver of a heavy vehicle that is proceeding from Port Botany directly to a destination on Beauchamp Road, Matraville and who is carrying a copy of this Order in the driving compartment of the vehicle.

6. Declaration

6.1 Road Rule 91 of the Road Rules 2008 is declared not to apply to a driver of a heavy vehicle referred to in clause 5 when making a left turn from Wentworth Avenue into Denison Street at Eastgardens.

6.2 Road Rule 104 of the Road Rules 2008 is declared not to apply to a driver of a heavy vehicle referred to in clause 5 when travelling along Bunnerong Road at Matraville (between Botany Road and Wentworth Avenue).

Explanatory Note

Rule 104, “No trucks signs”, Road Rules 2008, provides that the Rule does not apply if the destination of the driver lies beyond a no trucks sign and:

- (a) there is no other route by which the driver’s vehicle could reach that destination, or
- (b) any other route by which the driver’s vehicle could reach that destination would require the vehicle to pass another no trucks sign.

This Order operates to permit the driver of a defined heavy vehicle to travel from Port Botany to a destination on Beauchamp Road, Matraville despite “No Trucks” restrictions on Bunnerong Road at Matraville (Road Rule 104) and to make a left turn from Wentworth Avenue into Denison Road at Eastgardens, despite a no left turn sign (Road Rule 91).

LOCAL COURT OF NEW SOUTH WALES**Practice Note Civ 1**

**Issued pursuant to section 15 of the *Civil Procedure Act 2005 (CPA)*
and pursuant to section 27 *Local Court Act 2007***

**CASE MANAGEMENT OF CIVIL PROCEEDINGS
IN THE LOCAL COURT****1. Commencement**

1.1 This Practice Note commences on 23 March 2011.

2. Application

2.1 This Practice Note applies to proceeding civil proceedings within the Local Court.

2.2 This Practice Note revokes the following Practice Notes:

- (a) Practice Note 1 of 2000
- (b) Practice Note 1 of 2001 (insofar as it applies to civil proceedings)
- (c) Practice Note 1 of 2005
- (d) Practice Note 2 of 2005
- (e) Practice Note 2 of 2007
- (f) Practice Note 3 of 2007
- (g) Practice Note 6 of 2007
- (h) Practice Note 1 of 2009
- (i) Practice Note 3 of 2010

3. Introduction

3.1 The purpose of this Practice Note is to revoke previous Practice Notes relating to civil proceedings and remake those Practice Notes with minor amendments to provide a consolidated Practice Note dealing with all matters relevant to the management of civil proceedings.

3.2 This Practice Note describes the practice of the Local Court in managing civil proceedings so as to achieve the just, quick and cheap resolution of the real issues in the proceedings: s 56(1), *Civil Procedure Act 2005* ('CPA').

3.3 The Court's Time Standards aim to finalise 90% of civil proceedings within 6 months of commencement and 100% within 12 months. Parties must plan to meet these Time Standards.

3.4 The Court by this Practice Note seeks to give effect to the overriding purpose of the CPA and to the finalisation of all civil proceedings within the Court's Time Standards.

3.5 A party to civil proceedings is under a duty to assist the Court to further the overriding purpose and, to that effect, to participate in the processes of the Court and to comply with the directions of the Court: s 56(3) CPA.

4. Case Management

4.1 The Court will case manage the proceedings having regard to the objects specified in s 57(1) CPA.

5. Representation

- 5.1 Where a party is legally represented, the legal representative (or their agent) must appear on behalf of the party at a Pre-trial Review, Call-over and Review.
- 5.2 The legal representative must have sufficient instructions to make and consider offers of settlement and to enable the Court to make all appropriate orders and directions.
- 5.3 If proceedings are adjourned due to a legal representative being insufficiently instructed a costs order may be made against the party.

6. Dismissal

- 6.1 If within 9 months after a statement of claim has been filed:
- (a) A defence or cross claim is not filed, or
 - (b) A default judgment is not entered, or
 - (c) The proceedings are not otherwise disposed of, the proceedings are on the Court's own motion and order dismissed: Uniform Civil Procedure Rules 2005 ('UCPR'), r 12.9(2).
- 6.2 No such order is made if there are any Notices of Motion or other applications in the proceedings that are yet to be determined: UCPR r 12.9(4).

7. Directions

- 7.1 The Court may give such directions as it thinks fit for the speedy determination of the real issues between the parties to the proceedings.

8. General adjournments

- 8.1 No proceedings are ever stood over generally: see s 66(1) CPA.

9. Alternative Dispute Resolution

- 9.1 At the earliest listing of the proceedings the Court may consider whether the proceedings are suitable for ADR.
- 9.2 ADR includes:
- Mediation pursuant to the provisions of Part 4 of the CPA or otherwise;
 - Arbitration pursuant to the provisions of Part 5 of the CPA.
- 9.3 If the matter appears to the Court to be appropriate for resolution by mediation or arbitration, the Court will refer the proceedings for mediation or arbitration.
- 9.4 The Court's power to refer parties to mediation does not depend on the consent of the parties, or any of the parties.
- 9.5 The Court may give directions requiring statements from parties including a timetable to enable parties to be prepared for mediation.
- 9.6 The Court may only refer proceedings to arbitration where such matters do not involve complex issues of fact or law and the hearing is estimated to take 3 hours or less. Proceedings in the Small Claims Division or proceedings involving allegations of fraud will not be referred to arbitration unless special circumstances exist or the parties consent: UCPR r 20.8.
- 9.7 Where the court refers proceedings for arbitration, the court may give directions for the conduct of the arbitration.

- 9.8 Where a notice of motion is made for the rehearing of referred proceedings the Court will make orders in accordance with paragraph 13.5 (second Call-over) and the proceedings shall not be adjourned to a further Call-over.

10. Transfer between Small Claims Division and General Division

- 10.1 In addition to matters contained in Local Court Rules 2009 ('LCR'), r 2.3 the court may transfer proceedings from the Small Claims Division to the General Division where it is of the opinion that the proceedings should be consolidated with other proceedings already commenced in the General Division.

11. Change of Venue

- 11.1 Unless the Court grants leave, a notice of motion seeking a change of venue under Part 8 of the UCPR is to be filed at the same time as the filing of the defence.
- 11.2 The motion is to specify the venue to which the applicant seeks the proceedings to be changed and is to be supported by an affidavit addressing the matters contained in UCPR r 8.2 and identifying the reasons upon which the applicant relies for the change of the venue.
- 11.3 An application to change the venue to another court less than 100 kilometres from the originating venue will not be granted unless exceptional circumstances are demonstrated.
- 11.4 The registrar will list the proceedings for either Pre-trial Review or Call-over within six weeks. The registrar will send a notice of listing together with a copy of notice of motion to change venue and the defence to all other active parties.
- 11.5 If the respondent objects to the change of venue the respondent may, within 14 days from the date that the notice of listing was sent, file and serve an affidavit in response outlining the reasons why the venue should not be changed.
- 11.6 Unless the court otherwise orders, a motion for change of venue will be determined by any Magistrate or, where the proceedings are in the Small Claims Division, by a Magistrate or Assessor after the lapse of 14 days from the date that the notice of listing was sent. Unless otherwise ordered the motion will be dealt with in chambers without the necessity for a party to attend.
- 11.7 Where the Magistrate or Assessor determines that the venue will be changed the Registrar of the originating court shall vacate the date of listing of the Pre-trial Review or Call-over and obtain a new Pre-trial Review or Call-over date at the venue to which the proceedings are transferred. The Registrar shall inform the parties of the re-listing of the proceedings.
- 11.8 Where the Magistrate or Assessor determines that the venue not be changed the Registrar shall inform the active parties that the Pre-trial Review or Call-over date is confirmed.
- 11.9 Unless the Court orders otherwise, the Court will direct that the costs of the motion be the costs in the cause.
- 11.10 Unless the Court otherwise orders, the maximum costs order that the Court may allow on the motion is \$150 in relation to proceedings in the Small Claims Division and \$300 in relation to proceedings in the General Division.

12. Small Claims Division Case Management

- 12.1 Proceedings in the Small Claims Division are to be conducted with as little formality and technicality as the proper consideration of the proceedings permit.

Pre-trial Review

- 12.2 On the filing of the first defence (the defence filing date), the proceedings will be given a Pre-trial Review Date within six weeks of the defence filing date.

- 12.3 The objective of the Pre-trial Review is to provide the opportunity for the Court to assist the parties to settle their dispute. Parties must attend in person or, if legally represented, the legal representative must have authority to settle the dispute. The Court or Registrar may refer the parties to mediation.
- 12.4 If the matter is not settled at the Pre-trial Review the parties must identify the issues in dispute and disclose, as far as is known, the statements and documents upon which they propose to rely at the hearing. The parties shall record these matters on the Pre-trial Review Sheet that is attached to this Practice Note (Annexure A) and lodge it with the Registrar at the Pre-trial Review.
- 12.5 The parties are required to make any interlocutory applications at the Pre-trial Review.
- 12.6 Unless the Court otherwise orders, the Case Management Order given by the Magistrate, Assessor or Registrar at the Pre-trial Review shall be in accordance with the Case Management Orders contained at Annexure B.
- 12.7 In determining whether a direction may be given at the Pre-trial Review that a witness attend the trial of the proceedings to be orally examined, the Magistrate or Assessor will have regard to the particular circumstances of the case, including the amount involved and whether there is a real issue as to credibility or a significant conflict in the evidence.
- 12.8 A party will not be permitted to rely on documents or statements at the hearing that have not been filed and served in accordance with the Case Management Order unless the Court grants leave.

Small Claims Trial

- 12.9 A 'formal trial', that is, the normal adversarial trial where oral evidence is taken on oath, and witnesses cross-examined is not available in the Small Claims Division. There is no right to call witnesses to give evidence, or to cross-examine a witnesses or for a party to give oral evidence at the hearing.
- 12.10 Where a direction has not been given at the Pre-trial Review by the Magistrate, Assessor or Registrar for the attendance or cross examination of any witness at the trial of the proceedings, the proceedings will be heard and determined in open Court on the basis of the documentary evidence served and filed in accordance with the Case Management Order. Parties have the right to attend and to make comments, present arguments and make final submissions on the evidence.
- 12.11 Where a direction has been given at the Pre-trial review by the Magistrate, Assessor or Registrar that a witness attend for cross-examination, the proceedings will be heard and determined on the oral evidence and the written statements, other documents and materials which have been tendered. Submissions on the evidence will also be allowed.
- 12.12 The procedure at the trial of the proceedings in the Small Claims Division will be determined by the Magistrate or Assessor as he or she thinks fit.

13. General Division Case Management

Management of the Court Lists

- 13.1 On the filing of the first defence (the defence filing date) the proceedings will be given a first Call-over **within six weeks** of the defence filing date.
- 13.2 Standard Directions in the terms outlined at Annexure C of this Practice Note will be served by the Court on service of the defence. Unless the Court otherwise orders, the parties shall comply with the standard directions.

The First Call-over

- 13.3 The first Call-over shall be conducted by a Magistrate or Registrar (the Court). The Court may, by order, give directions as the Court thinks fit for the speedy determination of the real issues between the parties to the proceedings. Such orders may include:
- (a) The allocation of a date for return of subpoenas;

- (b) An order for the preparation and filing of the agreed list of exhibits that are page numbered and indexed;
 - (c) Such other directions with respect to the conduct of the proceedings as it considers appropriate;
 - (d) Any other matter mentioned in Part 6 CPA;
 - (e) A referral of the proceedings for mediation by a mediator (s26 CPA);
 - (f) A referral of the proceedings for determination by an arbitrator (s38 CPA); and
 - (g) A direction that the parties complete the Civil Listing Advice attached to this Practice Note (Annexure D) and file it in Court on the Review date.
- 13.4 At the first Call-over the Court may fix a date for trial and for review but where the Court is unable to do so in accordance with the dictates of justice the Court may adjourn the proceedings to a second Call-over, which **must be held within 28 days** of the first Call-over.

The Second Call-over

- 13.5 At the second Call-over, the Court shall:
- (a) Fix a date for trial. Trial dates will be fixed to give effect to the overriding purposes of the CPA – the just, quick and cheap resolution of the proceedings and the Court’s Time Standards;
 - (b) Fix a Review date not more than 42 days prior to the trial date; and
 - (c) Make orders in accordance with paragraph 13.3 of this Practice Note
- 13.6 Where the proceedings at the second Call-over are before a Registrar and the parties are unable to take a trial date, the Registrar **must** refer the proceedings for a **Directions Hearing** before a Magistrate, which is to be held **not more than 14 days** after the date of the second Call-over.

The Review

- 13.7 The Magistrate at the Review shall ensure that the proceedings are ready for trial and the Court’s directions have been complied with. If the Court’s directions have not been complied with, the Court may make orders including dismissing the proceedings, striking out a defence or cross claim, directing a party to pay the whole or part of the costs of another party or making such orders as it considers appropriate: ss 61(3),(4) CPA.
- 13.8 Where the parties are represented by a solicitor or barrister a completed and signed copy of the Civil Listing Advice (Annexure D) shall be provided to the Court and to each other party’s representative on the review date.
- 13.9 At the Review the Court will confirm that the estimated trial duration contained in the Civil Listing Advice is accurate and appropriate and may direct time limits to be imposed on parties for:
- (a) Opening addresses;
 - (b) Presentation of a party’s case including cross-examination; and
 - (c) Closing addresses.
- 13.10 A party may not exceed these time limits unless special circumstances exist and leave is granted by the Court.

14. Subpoenas

- 14.1 The parties must issue subpoenas as early as possible so that documents can be produced and inspected and are available for the proper preparation of the case, including submission to experts.
- 14.2 In Small Claims Division proceedings a subpoena may be issued only with leave of the Court: UCPR r 7.3. Application for a subpoena should be made at the Pre-trial Review.

Access to Subpoenaed Documents

- 14.3 The purpose of this paragraph is to streamline access to documents produced under subpoena.
- 14.4 In this Practice Note:
- Default access order** means general access to all parties. An order for general access includes permission to photocopy documents.
- Produced documents** means documents produced in answer to a subpoena.
- 14.5 A party must attach UCPR form 28 – *Subpoena notice and declaration* to every subpoena to produce.
- 14.6 The subpoena notice and declaration must include either:
- A proposed access order for the subpoenaed material and the reasons for that order; or
 - The default access order.
- 14.7 If the issuing party does not propose an access order then the default access order will apply.
- 14.8 If the nature of the documents to be produced under the subpoena mean that one or more of the parties may be entitled to claim privilege, or seek orders restricting access in relation to all or some of the documents, then the issuing party must nominate a proposed access order that provides first access to the party that may be entitled to claim privilege or apply for restricted access. In proceedings where the plaintiff may be entitled to claim privilege or apply for orders to restrict access the usual order is: plaintiff to have access for 7 days then, in the absence of further application, general access. The terms of the proposed access order should be amended as appropriate to suit the particular case.
- 14.9 Under UCPR r 7.3, litigants in person and litigants in the Small Claims Division need the leave of the Court to issue a subpoena.
- 14.10 A person may seek leave to issue a subpoena either orally before the Court or by lodging the following documents with the Registrar:
- A copy of the subpoena; and
 - A letter setting out the reasons why leave is sought to issue the subpoena.
- 14.11 If a person is seeking leave to issue a subpoena to give evidence, the letter must state the relevance of the subpoenaed party's evidence to the proceedings. If a person is seeking leave to issue a subpoena to produce, the letter must state the relevance to the proceedings of the documents that are being sought.
- 14.12 The Registrar will consider the application in the absence of the public, usually within 24 hours of the application being lodged.
- 14.13 The Registrar will advise the applicant when he or she has made a decision on the application.
- 14.14 Wherever possible, a subpoena to produce should seek the production of copies of the material rather than the original material.
- 14.15 The person to whom the subpoena to produce is addressed must return the subpoena notice and declaration to the court with the produced items.
- 14.16 Where there is a large volume of produced material and inspection cannot be conveniently carried out in the registry, the court may order the parties to:
- Arrange a location where the documents can be securely stored and inspected;
 - Organize and pay for the secure transportation of the documents to and from that location; and
 - Inspect the documents at that location.
- 14.17 If some or all of the documents have not been produced by the return date, or the producing party and the parties to the proceedings cannot agree as to the terms of an access order or there is a pending application in relation to the subpoena, then the subpoena can be stood-over. If the

issuing party and subpoenaed party cannot agree on the new return date the Registrar will deal with the matter. If neither the issuing party nor the subpoenaed party appears and the subpoena has not been complied with or fully complied with, the issuing party can apply for an adjourned date for the subpoena by writing to the Registrar within 7 days of the return date. The issuing party must notify all other active parties to the proceedings of any adjourned return date.

- 14.18 When the Court no longer requires the subpoenaed material, it will:
- Return original material or material that is a mix of original and copied material to the producing party, and
 - Securely destroy any copied material.
- 14.19 A party cannot access produced documents until the Court has made an order allowing the party to access the documents.
- 14.20 The Court will make orders each day in relation to:
- (a) Produced documents that have been produced to the registry before the close of the business day before the return date; and
 - (b) Produced documents that are produced in court on the return date where the producing party has no objection to the proposed access order and no other party appears to object to the proposed access order.

Unless the Court otherwise orders, it will make orders in accordance with the proposed access orders contained in the subpoena notice. If a proposed access order has not been included in the subpoena notice, the court will make the default access order in relation to the subpoenaed material.

- 14.21 Contested subpoena applications will be listed before the Registrar.

15. Motions

- 15.1 Parties must file any motions as soon as practicable. A motion will be allocated a hearing date in the general motions list on the first available date and the parties should be ready to argue the motion on that date.
- 15.2 Unless the Rules otherwise provide, or leave is granted by the Court, interlocutory applications in Small Claims proceedings are to be made orally at the Pre-trial Review: LCR r 2.10.

16. Expert Evidence

- 16.1 In all cases, parties must seek directions from the Court on the giving of expert evidence in the proceedings.

Single Expert Witnesses

- 16.2 Unless cause is otherwise shown, a single expert direction will be made in every proceeding and at the earliest practicable time in the course of case management.
- 16.3 A “single expert direction”, when made in those terms, means that the following directions are to be taken as having been made, with such variations as may be specified at that time or subsequently:
- (a) Any expert evidence is confined to that of a single expert witness in relation to any one head of damages, including but not limited to the nature, extent and cost of required nursing care or domestic care (including claims under *Griffiths v Kerkmeyer* and under *Sullivan v Gordon*), physiotherapy, speech therapy, home modification, motor vehicle or aids and equipment, being evidence of the kind customarily given (by way of example) by rehabilitation consultants, occupational therapists, nursing and domestic care providers, architects, builders, motor vehicle consultants, and by aids and equipment suppliers.

- (b) Evidence may be provided by the same single expert in relation to more than one head of damages provided the expert is appropriately qualified. It is contemplated, however, that there may be a number of single expert witnesses retained or appointed in the one proceeding.
 - (c) In relation to any head of damages as to which any party wishes expert evidence to be adduced, the parties are to agree on a single expert to be retained and are to obtain the concurrence of the expert within 14 days from a date specified in the order as the commencement date of the direction, otherwise within 14 days from the making of the direction.
 - (d) Failing agreement and concurrence within that time, the parties are to notify the court forthwith, and the court will, pursuant to Pt 39 appoint a court expert to be the single expert.
 - (e) Within 14 days from the selection or appointment of a single expert witness, the parties are to brief the expert, in such manner as the parties may agree, with materials sufficient to enable the expert to prepare a report. If the parties do not so agree, they are to notify the court forthwith and the court will give directions as to how the single expert witness is to be briefed.
 - (f) If the parties agree or the single expert witness so requests, the plaintiff in the proceedings is to submit to the clinical examination by the single expert witness.
 - (g) Within 21 days from the date on which a single expert witness is so briefed, the expert is to send his or her report to each of the parties to the proceedings, through their legal representatives.
 - (h) A single expert witness may be requested to provide a supplementary report taking into account any new or omitted factual material. The provisions of this practice note apply to such a supplementary report *mutatis mutandis*.
 - (i) Any party may, within 14 days from receipt of the report, put a maximum of 10 written questions to the expert, but for the purpose only of clarifying matters in the report unless the court otherwise grants leave. The expert is to answer the questions within 14 days.
 - (j) The report of a single expert witness and any question put to the expert and the expert's answer thereto may be tendered by any party at the trial subject to all just exceptions and section 177 of the *Evidence Act 1995*.
 - (k) A single expert witness may be cross-examined at the trial by any party, subject to the provisions of section 177 of the *Evidence Act 1995*.
 - (l) A single expert witness's fee for preparation of the report and any supplementary report and for attending court, if required to do so, is to be paid by the parties equally, subject to other agreement or direction and subject to any later order concerning the costs of the proceedings. A single expert witness's fee for answering questions put by a party is to be paid by the party, subject to the same qualifications.
 - (m) A single expert witness may apply to the court for directions.
- 16.4 Nothing in this Practice Note is intended to require the retaining or appointment of a single expert witness in relation to liability, the nature or extent of injury or disability, or the causation of injury or disability.

17. Vacation of Hearing Trial Date

- 17.1 Any application to vacate a trial must be by Notice of Motion and must be made **not less than 21 days** prior to the allocated trial date.
- 17.2 Applications to vacate a trial **within 21 days** of the trial date on the basis of unforeseen circumstances (for example on the ground of illness) must be made as soon as practicable and not later than the next working day after a party becomes aware of the unforeseen circumstances. If the trial is within 21 days the party seeking to vacate a trial should not wait to obtain the consent of the other party before approaching the Court.

18. Maximum Cost Orders in General Division where liability is not in issue

- 18.1 This section applies to proceedings in the General Division where liability has been admitted and the only issue for determination between the parties is the quantum of damages in a motor vehicle property damage claim.
- 18.2 For the purposes of this Practice Note, the term “Maximum Costs Order” means an order in accordance with UCPR r 42.4 that the maximum costs a party may be required to pay another party shall not exceed an amount for solicitors and/or barristers fees calculated in accordance with this rule plus, where applicable, reasonable disbursements, witness expenses and expert fees.
- 18.3 For the purpose of determining the Solicitors and/or Barristers fee component of the Maximum Cost Order as hereafter provided the following definitions shall apply:
- PA means the amount claimed by the Plaintiff as representing the quantum of damages.
- DA means the amount claimed by the defendant as representing the quantum of damages.
- MACA means the mean average of the claimed amount and is calculated by the following formula, $(PA + DA)/2 = MACA$
- DC means the amount of the disputed cost of repairs calculated by the formula, $PA - DA = DC$
- MADC means the mean average of the disputed cost of repairs amount and is calculated by the following formula, $DC/2 = MADC$
- CDA means the Court Determined Amount, which is the amount, determined by the Court as representing the quantum of damages.
- BASE AMOUNT means the amount of \$2,500.00 or otherwise an amount which is 25% of the amount of the disputed cost of repairs, whichever is the greater.
- 18.4 Where the amount determined by the Court as representing the quantum of damage is equal to the amount claimed or accepted by the defendant or less than the mean average of the claimed amount, a Maximum Costs Order shall be made in favour of the defendant.
- 18.5 Where the amount determined by the Court as representing the cost of repairs of the quantum is equal to the mean average of the claimed amount, then unless the court otherwise orders, no order as to costs will be made.
- 18.6 Where the amount determined by the Court as representing the cost of repairs of the quantum of damage is greater than the mean average of the claimed amount, a Maximum Costs Order shall be made in favour of the plaintiff.
- 18.7 Where the defendant is entitled to the benefit of the Maximum Costs Order, the Solicitors and/or Barristers component of the Maximum Costs Order shall be calculated in accordance with the following formula.
- $$(MACA - CDA)/MADC \times \text{BASE AMOUNT} = \text{Solicitor/Barrister Component}$$
- 18.8 Where the plaintiff is entitled to the benefit of the Maximum Costs Order, the Solicitors and/or Barristers component of the Maximum Costs Order shall be calculated in accordance with the following formula.
- $$(CDA - MACA)/MADC \times \text{BASE AMOUNT} = \text{Solicitor/Barrister Component}$$
- 19. Maximum Cost Orders in General Division where liability and quantum are in dispute**
- 19.1 This provision applies to proceedings where liability has not been admitted and the court is required to make a determination both as to liability and as to the quantum of damages in respect to a motor vehicle collision.

- 19.2 The Court shall make in addition to the Maximum Costs Order calculated in accordance with paragraph 18.7 or 17.8 a Costs Order in accordance with paragraph 18.3 or 18.4 as the case may be.
- 19.3 Where the defendant has not admitted liability and the Court has made a finding in favour of the plaintiff on the issue of liability, then in addition to any Maximum Costs Order made in accordance with paragraph 18.7 or 18.8, the Court shall order that the defendant pay to the plaintiff the sum of \$1,500 for any additional costs and disbursements incurred in proving the issue of liability.
- 19.4 Where the defendant has not admitted liability and the Court has made a finding in favour of the defendant on the issue of liability, then in addition to any Maximum Costs Order made in accordance with paragraph 18.7 or 17.8, the Court shall order that the plaintiff pay to the defendant the sum of \$1,500 for any additional costs and disbursements incurred in defending the issue of liability.

20. Maximum Cost Orders in General Division for Claims under \$20,000

- 20.1 This provision applies to proceedings in the General Division in which the amount claimed does not exceed \$20,000 and to all matters transferred from the Small Claims Division to the General Division.
- 20.2 Unless the court otherwise orders, this provision applies to proceedings no matter when commenced.
- 20.3 Unless the Court in a particular case determines otherwise, the discretion of the Court as to costs incurred after the first defence is filed will be exercised as if a Maximum Costs Order had been made in the proceedings at the time of filing of the first defence in the terms set out below. Costs up to and including the filing of the first defence will not be included in the amount specified in the Maximum Costs Order, but may be ordered in addition to that amount.
- 20.4 The Maximum Costs Order for proceedings for claims between \$10,000 and \$20,000 is as follows:
- (a) Where the plaintiff succeeds – 25% of the amount awarded by the court
 - (b) Where the defendant succeeds – 25% of the amount claimed by the plaintiff.
- 20.5 The Maximum Costs Order for proceedings transferred from the Small Claims Division to the General Division is fixed at \$2,500.
- 20.6 Any party seeking to vary the Maximum Costs Order or such other UCPR r 42.4 order as may be in force may make application by way of notice of motion at any time but not later than two weeks prior to the first Review date.
- 20.7 The notice of motion must be supported by an affidavit containing information as to the importance of the subject matter of the proceedings and the complexity of the proceedings.
- 20.8 The supporting affidavit must include an estimate of the costs of the party on an ordinary basis as at the date of the application, and an estimate of the costs on an ordinary basis that will be incurred between the date of the application and the completion of the trial. The supporting affidavit must **NOT** annex a bill of costs of the party making the application.
- 20.9 The notice of motion must specify an amount sought as an alternative maximum costs order.
- 20.10 A party who may be affected by an application for variation of the Maximum Costs Order may file and serve on all other active parties an affidavit responding to the notice of motion. That affidavit may specify an amount sought as an alternative maximum costs order.
- 20.11 The court will determine an application for variation of the maximum costs order up until the time of first Review and may make the following orders:
- (a) An order that the Maximum Costs Order shall continue to apply
 - (b) An alternate Maximum Costs Order
 - (c) Such other order as the Court deems appropriate.

- 20.12 Where, in any proceedings to which this provision applies, a defendant seeks to cross claim against the plaintiff or any other person, the successful party shall be entitled to a costs order as if the proceedings had been separately commenced.

21. Award of Legal Costs

- 21.1 This Practice Note applies to matters in the General Division. It also applies in the Small Claims Division, to the extent that such costs are not inconsistent with the maximum costs that are allowable under Part 2 of the LCR.
- 21.2 This Practice Note provides guidelines developed under a joint initiative between the Local Court and the Law Society of NSW. The Guideline Amounts apply in respect to matters that are relatively short and straightforward. Assessment under the Costs Assessment Scheme remains an available option for deciding costs in long and more complex cases.
- 21.3 On the trial day, practitioners for each party should have a summary of the fair and reasonable costs that will be sought if their client is successful. Evidence of time spent, such as copies of time ledger print outs, file notes and memoranda should be available.
- 21.4 At the end of the trial, the Court will encourage the parties to negotiate an agreement on costs. The application of the costs guidelines will assist the parties to reach agreement. If necessary, the Court will adjourn the question of costs for that purpose. If agreement is reached after the hearing day, consent orders can be filed without a further appearance in Court.
- 21.5 Costs will be allowed by reference to time reasonably spent on the case, however, the Court will not engage in a taxing exercise (whereby individual items on a bill of costs are either allowed or disallowed). There is no requirement to distinguish between time spent on the trial and on interlocutory matters, unless costs in the interlocutory matter have been separately determined. The legal practitioner seeking costs bears the onus of establishing what time was spent on the case, and that the time spent was reasonable in all the circumstances.
- 21.6 On request, the Court will determine any application for indemnity costs before asking the parties to negotiate an agreement on costs.
- 21.7 If the parties are unable to reach an agreement on costs, and a party is opposed to the Court determining costs, the question of reasonable costs may be referred for assessment under the Costs Assessment Scheme.

Guideline Amounts

- (a) Where prescribed costs apply under for recovery of certain debts and enforcement of certain judgments under the Legal Profession Act 2004 then those amounts apply.
- (b) Preparation of other documents, such as defences, subpoenas – drawing, typing checking, filing and service - \$27.90 (per 6 minutes)
- (c) Perusals, letters, telephone calls etc - \$27.90 (per 6 minutes)
- (d) Conferences (client and witnesses) - \$27.90 (per 6 minute units)
- (e) Attending interlocutory hearings, preparation for trial (including preparing witness statements), attending court (including traveling and waiting time) - \$69.00 (per ¼ hour or part thereof)
- (f) Disbursements – as reasonably incurred
- (g) Counsel’s fees – as disclosed, in a reasonable amount, and as reasonably incurred.
- 21.8 Where a clerk or paralegal carries out the attendances, costs for that person should be allowed at 40% of the amount for a qualified legal practitioner.
- 21.9 Any increases in the Consumer Price Index since the publication of this Practice Note should be reflected in the costs awarded.
- 21.10 Nothing in this Practice Note affects the power of the Court to exercise its discretion to depart from the orders specified herein or make orders for indemnity costs in appropriate cases.

22. Pre-Judgment Interest

- 22.1 Section 100 of the CPA provides for the making of orders for the inclusion of interest in judgments.
- 22.2 Practitioners and litigants should expect that where, pursuant to section 100(1) and (2) of the CPA, interest in respect of a pre-judgment period is to be included in a judgment, the Court will have regard to the following rates, being rates agreed upon by the Discount and Interest Rate Harmonisation Committee established following a referral by the Council of Chief Justices:
- (a) In respect of the period from 1 January to 30 June in any year – the rate that is 4% above the cash rate last published by the Reserve Bank of Australia before that period commenced, and
 - (b) In respect of the period from 1 July to 31 December in any year – the rate that is 4% above the cash rate last published by the Reserve Bank of Australia before that period commenced.

<u>COURT APPEARANCES</u>	<u>DATE</u>	<u>TIME</u>
CALL OVER DATE (Attendance of behalf of all parties is required if a Notice of Listing is received)		

(Review and Trial date will be allocated at Call Over)

If the parties fail to comply with the Court's directions it can be expected that the statement of claim will be dismissed or the defence struck out and orders will be made that the non complying party pays the costs of the other party.

STANDARD DIRECTIONS

(applicable only to matters to be heard by the Court)

1. Each party shall serve upon all other parties copies of written statements or affidavits of the intended evidence of all witnesses, together with copies of any annexures, reports or other documentation (all which should be numbered) intended to be relied upon, on a day at least 14 days prior to the Review date of this matter (being a date at least 28 days prior to the day fixed for trial). **A written statement or affidavit of a witness is not to be filed unless the Court otherwise directs.**
2. Each party or their legal representative is directed to attend on the Review date allocated by the Court. On the Review date each party shall file a written summary of the case, including a reference to any relevant case law or statute.
3. The Plaintiff shall prepare and file a statement of agreed facts and issues 7 days prior to the date fixed for hearing.
4. Unless there is more than one defendant, each party must prepare four copies of all statements or affidavits and other documents. In the case of each additional party, one additional copy should be provided.
5. Where a written statement or affidavit of a witness has not been exchanged, evidence may not be admitted, unless the non-complying party satisfies the Court that it is in the interests of justice to do so.
6. Failure to comply with the Court's directions may result in the statement of claim or cross claim being dismissed, or the defence being struck out, with costs.
7. Where a legal practitioner acts as agent for a party he/she must forward a copy of the direction to the principal legal practitioner immediately.

INTRODUCTION

WorkCover NSW follows the United Nations system for classifying explosives for transport, as a means of identifying explosive hazards. This classification system categorises explosives into hazard levels by assigning different divisions – ie 1.1, 1.2, 1.3, 1.4, 1.5 and 1.6.

These divisions are further assigned to groups that are compatible with each other and allow safe storage and transport without increasing the risk or hazard associated with the explosives.

The full classification of an explosive is known as its classification code and comprises the hazard division followed by a letter, known as the compatibility group.

The most common hazard divisions encountered in NSW are 1.1, 1.3, 1.4 and 1.5. The most common compatibility groups encountered in NSW are B, C, D, G and S.

The common hazard divisions are:

- Division 1.1 – substances and articles which have a mass explosion hazard
- Division 1.3 – substances and articles which have a fire hazard with minor blast or projection hazard
- Division 1.4 – substances and articles which present no significant hazard
- Division 1.5 – very insensitive substances which have a mass explosion hazard.

The common compatibility groups are:

- B – articles containing a very sensitive primary explosive substance
- C – an explosive substance used to propel projectiles out of a weapon
- D – a detonating explosive that can cause mass destruction
- G – a pyrotechnic substance or article used to give light, create smoke, or give a loud report
- S – a substance or article packed in a package in a manner that it will not present any significant hazard if it is accidentally functioned within that package.

An example of a ‘most hazardous explosive’ is a detonator that has a classification code of 1.1B. An example of a ‘least hazardous explosive’ is a party popper, in its packaging, which has a classification code of 1.4S.

Clause 8 of the *Explosives Regulation 2005* provides that WorkCover NSW is the regulatory authority and may register an explosive as an authorised explosive or a prohibited explosive, under the UN classification system outlined above. Clause 9 of the regulation makes it an offence to ‘handle any unauthorised explosive’ and under clause 10 makes it an offence to falsely represent an explosive as authorised.

When WorkCover authorises an explosive, it assigns a classification code according to the UN system **and places the commercial name or trade name, or description, of that explosive on a list, under that classification system.** If that name or description does not appear on the list, the explosive is not authorised.

Fireworks are not authorised if – after checking with WorkCover to determine if the firework name has a corresponding product code on WorkCover’s database – that product code number does not appear on the database.

This register contains a list of commercial names or trade names, or descriptions, of all explosives that are currently authorised for use in NSW, and includes the Commonwealth Defence Explosive Ordnance Classification Listing (DEOCL).

Note: The DEOCL Listing of Defence Explosive Ordnance, as amended from time to time, is deemed to be incorporated into this list.

2. AUTHORISED COMMONWEALTH EXPLOSIVES

2.1 COMMONWEALTH DEFENCE EXPLOSIVES ARRANGEMENTS

The Directorate of Ordnance Safety (DOS) is the technical regulator of Explosive Ordnance storage and transport activities within the Australian Defence Organisation. An important activity of the DOS is the compilation of the DEOCL issued at regular intervals on a restricted basis.

2.2 CIVILIAN CONTRACTORS

Increasingly, civilian contractors handle defence ordnance. Under a long term Australian Defence Force contract, Thales Australia manufactures rifle ammunition, grenades, aircraft bombs, anti missile shells, large calibre ammunition, demolition charges and training and practice products. Also, the company has a contract to warehouse, maintain and distribute the Australian Defence Force's explosive ordnance. These civilian contractors are not defence personnel or Commonwealth employees, and some of their activities come under the NSW explosives regulatory regime. This makes it necessary to formally recognise the DEOCL list of Explosive Ordnance (which contains over 2400 line items) as explosives authorised under NSW legislation.

2.3 DEOCL LIST

Accordingly, the DEOCL listing of Explosives Ordnance, as amended from time to time, is now recognised in NSW as forming part of the List of Authorised Explosives under Clause 8 of the *Explosives Regulation 2005*.

3. CATEGORIES OF PROHIBITED EXPLOSIVES

The following categories of explosives are prohibited in NSW unless WorkCover has granted an exemption under clause 93 or 94 of the *Explosives Regulation 2005* or specific approval given on the appropriate licence or fireworks notification form.

3.1 SAFETY CARTRIDGES

A safety cartridge or other munitions is prohibited where:

- a. the bullet is not firmly fixed in the cartridge case
- b. the bullet has a split or cracked case
- c. the bullet has a case that is liable to split or rupture when fired in a properly constructed weapon of a chambering and calibre appropriate to a cartridge of its class
- d. the bullet or other projectile explodes, or contains an incendiary or tracer composition, or contains a lachrymatory, nauseating or toxic substance

but does not include:

- e. a safety cartridge in 3.1 (a), (b) and (c) held under a collector's licence issued by the police if the cartridges are kept separate from cartridges for use or for supply
- f. safety cartridge for use by the Police Service, the Commonwealth or a State or Territory of the Commonwealth, or by the Armed Services
- g. the importing, with the approval in writing of the Regulatory Authority, of a safety cartridge having a bullet or other projectile that contains an incendiary or tracer composition
- h. a safety cartridge having a bullet or other projectile approved in writing by the Regulatory Authority.

3.2 FIREWORKS

A firework is prohibited where the firework:

- a. contains a composition of a chlorate in admixture with sulphur, a sulphide or phosphorus (other than amorces, a streamer cone or a confetti bomb)
- b. is of such construction that firework composition can escape from it
- c. can explode en masse
- d. explodes either wholly or in part (other than a distress signal, amorces, a snap for a bon-bon cracker, a streamer cone or a confetti bomb)
- e. on ignition may project through the air in an erratic or unpredictable flight
- f. contains arsenic or a compound of arsenic as an ingredient of its composition
- g. does not have displayed on it instructions in the English language relating to the manner in which it should be ignited and the manner in which it is designed to behave
- h. ignites in less than three seconds, or more than 15 seconds, after its wick or touch paper has been ignited in accordance with the instructions displayed on it
- i. after having been set up and ignited in accordance with the instructions displayed on it, behaves otherwise than in accordance with those instructions.

- j. can be ignited or discharged by means other than the lighting of a wick, touch paper or by electric initiation, other than a distress signal, amorces, snaps for bon-bon crackers, streamer cones, model rocket propellant devices and confetti bombs
- k. is a rocket other than a distress signal
- l. is a trick firework
- m. is a display firework as defined by the *Explosives Regulation 2005*
- n. is a firecracker that can be initiated by striking on the side of a match-box
- o. are aerial salutes larger than 75mm.

Notwithstanding the above, fireworks are not prohibited if:

- i. they are for the purpose of use outside the State if they are exported as soon as practicable to that other State or Territory and evidence of an authority to import from that other State or Territory has been received and a copy is forwarded to the NSW Regulatory Authority, prior to the release of the fireworks
- ii. they are for use under the authority of a fireworks licence appropriately endorsed for the fireworks allowed to be used and are fireworks other than (b), (e), (i), (j), (k), (n) and (o) and are listed under Section 2 of this document
- iii. they are used in accordance with the manufacturer's or supplier's instructions.

3.3 DISTRESS SIGNALS

A distress signal is prohibited if it does not comply with AS 2092 (Pyrotechnic marine distress flares and signals for pleasure craft) or an equivalent International Standards Organisation standard.

3.4 MODEL ROCKETS

A model rocket propellant device is prohibited if it:

- a. contains a composition of a chlorate in admixture with sulphur, a sulphide or phosphorus
- b. is of such construction that ignitable substances can escape from it
- c. may explode either wholly or in part
- d. contains an ignitable substance or ignitable substances exceeding 15 grams in mass
- e. is used for the purpose other than that allowed for by a recognised model rocket club

CITY OF CANTERBURY

Exhibition of Draft Pesticide Notification Plan

WE have a legislative requirement under the Pesticide Act 1999, to revise and prepare a new draft Pesticide Notification Plan and put it on public exhibition for comment before adopting the plan.

The pesticide use notification plan has been prepared in accordance with the requirements of and the purposes of the Pesticides Regulation 2009 (the Regulation) under the Pesticides Act 1999. The plan sets out how and in what circumstances Council will notify members of the community of pesticide applications it makes or allows to be made to outdoor public places that it owns or controls.

The aim of this plan is to meet the community's general right to know about pesticide applications made to outdoor public places that are owned or controlled by public authorities. The Plan does not apply to outdoor public places which are not owned or controlled by Council.

The plan allows members of the community to take action to avoid contact with pesticides. Council ensures that pesticides are applied to public places in a safe and responsible manner, minimising harm to the community and the environment.

The plan sets out how Council will notify members of the community of pesticide applications made by Council in public places.

The plan describes:

- What is a pesticide
- What public places are covered by the plan
- Who regularly uses these public places and an estimate of the level of use
- How and when Council will provide the community with information about its pesticide applications in public places (i.e. What notification arrangements will be used)
- How the community can access this plan and get more information about Council's notification arrangements

- How future reviews of the plan will be conducted
- Contact details for anyone wishing to discuss the plan with Council

The majority of pesticide use consists of applying herbicides for weed control and applying insecticides to manage certain insect pests. Bait insecticides are used for termite and ant control to protect structures and public safety wherever this is considered an effective solution. Other pesticides used include fungicides and rodenticides.

The draft Pesticide Notification Plan will be on exhibition at our Customer Service Centre at the City of Canterbury Administration Centre, 137 Beamish Street, Campsie, between 9:00 a.m. and 5:00 p.m. from Monday, 4 April 2011 to Friday, 6 May 2011. You can also view the plan on our website www.canterbury.nsw.gov.au.

If you wish to comment on the draft Pesticide Notification Plan, please write to us before 5:00 p.m. on Friday, 6 May 2011, or email to council@canterbury.nsw.gov.au. If you require any further information please contact Nell Graham on (02) 9789 9422.
