CONTAMINATED LAND MANAGEMENT ACT 1997

Environment Protection Authority

Declaration of Significantly Contaminated Land
(Section 11 of the Contaminated Land Management
Act 1997)

Declaration Number 20121105; Area Number 3312

THE Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies ("the site")

This declaration applies to the land that is located at 619 Ebden Street, corner of Ebden Street and Wodonga Place, South Albury and is identified as Lot 101, DP 805672 within the local government area of Albury City Council. The site is known to be the BP Border Service Station South Albury. A map of the site is available for inspection at the Office of Environment and Heritage, Department of Premier and Cabinet, 59 Goulburn Street, Sydney NSW 2000.

2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with petroleum hydrocarbons.

3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in section 12 of the Act and for the following reasons has determined that the land is contaminated and that the contamination is significant enough to warrant regulation under the Act:

- The groundwater in the north-west quarter of the site is significantly contaminated with phase separated hydrocarbons and dissolved phase hydrocarbons. The principal contaminants are benzene, toluene, ethylbenzene and xylenes(BTEX) and total petroleum hydrocarbons in the C6-C9 range.
- The contamination has migrated offsite and formed a sizable plume underneath Wodonga Place and the adjoining park land.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA. If the proposal satisfies the requirements of section 17 of the Act, the EPA may agree not to issue a management order to the person or persons bringing the proposal.

5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Amendment/Repeal

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (section 44 of the Act).

Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to section 149 (2) of the Environmental Planning and Assessment Act that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the section 149 (2) certificate is no longer required.
