DIRECTOR GENERAL'S REPORT

This year has seen the Department of Transport face new challenges, including the refocus of its efforts towards improving outcomes for users of transport services.

It has been a year of lows and highs. Initially, systems problems and failures threatened confidence in our ability to deliver effective transport services in NSW. Then the outstanding success of transport for the Sydney 2000 Olympic Games demonstrated how well the systems can operate, even under the stress of record levels of usage and intense media scrutiny. Restoring and maintaining the credibility, effectiveness and safety of our public transport system is now the Department's key challenge.

To meet this challenge, the Department has been moving its focus from the traditional regulation of transport mode providers to active involvement in improving service outcomes for the customer. This shift in focus is on moving people and moving freight, not just the management of the transport mode or system of delivery. Of course, the effectiveness of the transport system is paramount, but the focus is on the efficiency, reliability, safety and value for money of the consumer's whole transport experience. This involves developing an integrated, whole-of-journey approach to transport planning across the transport portfolio, and beyond, to ensure effective transport solutions.

A key element of this process involves the Department driving reforms in transport industries, promoting improved performance by transport providers, and establishing a stronger leadership role within the transport portfolio and the wider community. We have adopted the corporate name Transport NSW to reflect and symbolise this development.

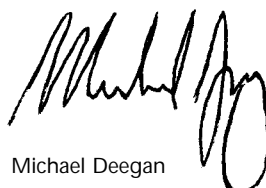

These changes required adjustments within the Department. During the year we restructured our operations to better align them with our strategic priorities. We commenced reviewing governance

structures both within the agency and across the transport portfolio. Our aim is to streamline communication to allow swifter and better integrated responses to issues. We have also revised all operational areas and modified our business plans and performance measures to support our lead agency role in managing and improving transport services to the community.

Shifts of this kind create stresses within organisations. I want to thank all of the Department's staff for their positive response and for maintaining services and standards in a period of change. With their continued support and dedication, we will achieve the high goals we have set ourselves.

It is my pleasure to submit the Annual Report of the NSW Department of Transport for the year ended 30 June 2001.

The report highlights progress made by the Department in meeting its performance targets and details achievements over the year and has been prepared in accordance with the relevant legislation.

Michael Deegan

Director General

KEY TRANSPORT INDICATORS

SYDNEYSIDERS ARE TRAVELLING MORE ON TRAINS AND BUSES THAN EVER, BUT AT THE SAME TIME OUR RELIANCE ON CARS IS INCREASING.

TRAIN TRIPS HAVE GROWN BY 11% FROM 1991/1992 TO 1999/2000, WITH BUS TRAVEL RISING BY 5%, BUT RELIANCE ON CARS CONTINUES WITH AN 18% INCREASE IN VEHICLE USE OVER THE SAME PERIOD.

PATRONAGE ON TRAINS, BUSES AND FERRIES AVERAGES MORE THAN 1.7 MILLION PASSENGER TRIPS PER DAY, COMPARED TO OVER 10 MILLION PRIVATE VEHICLE JOURNEYS.

WE ARE TRAVELLING MORE FREQUENTLY, OVER LONGER DISTANCES AND SPENDING MORE TIME TRAVELLING, MAINLY FOR NON-WORK PURPOSES.

TEENAGERS ARE THE HIGHEST USERS OF PUBLIC TRANSPORT AND, ALONG WITH THOSE AGED OVER 70, THESE TWO GROUPS DO MORE WALKING THAN OTHER AGE GROUPS.

ON WEEKDAYS, PEOPLE ARE USING PUBLIC TRANSPORT MORE FOR SOCIAL AND RECREATIONAL PURPOSES AND TO CONDUCT PERSONAL BUSINESS.

Number of trips by Sydney residents, 1991/1992 and 1999/2000

Sydney residents made 14.9 million trips on an average weekday in 1999/2000, an annual increase of 1.6% from 1991/1992. The number of trips on each weekend day increased by 1.5% pa from 1991/1992 to 1999/2000. This compares with an annual population increase over that period of 1.2%.

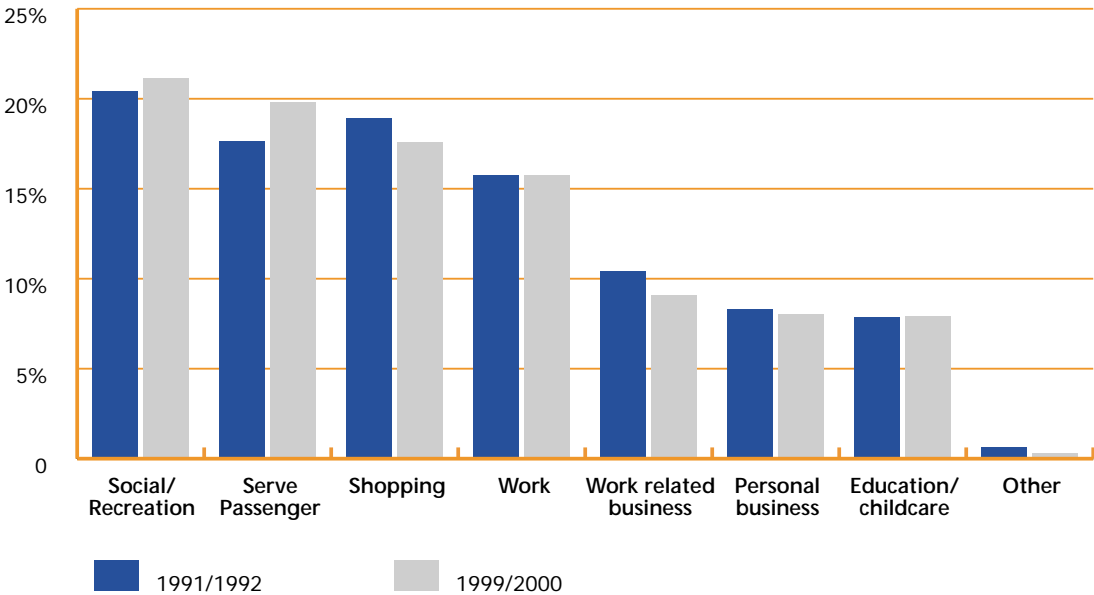

Purpose of travel by Sydney residents on an average weekday, 1991/1992 and 1999/2000

Most trips on weekdays and weekends were for the purposes of social/recreation, to serve passenger needs and shopping. Social and recreational trips made up the highest proportion of trips on an average weekday. They represented 21% of all trips in 1999/2000 up from 20% in 1991/1992. Trips to serve the needs of passengers represented 20% of trips in 1999/2000 up from 18% and the proportion of trips for shopping decreased slightly from 19% to 18% over that period. Trips for work remained stable at 16% of all trips.

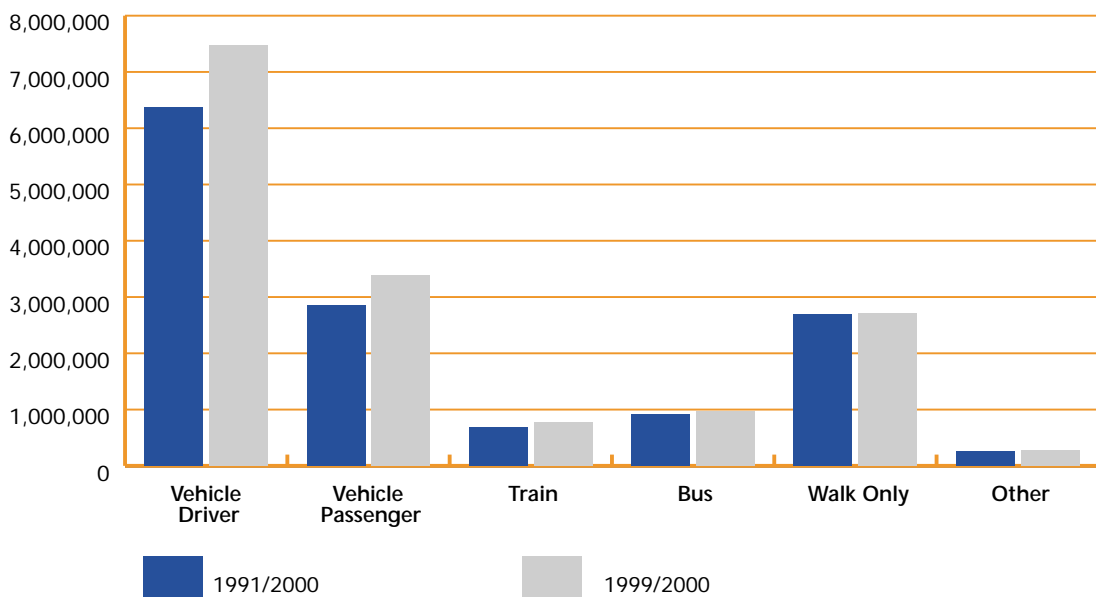

On weekend days the main purpose of travel was social and recreational trips at around 43% of all trips, followed by shopping trips (25%) and serving passenger needs (17%). Work trips accounted for around 4% of all trips on weekend days.

The main growth in travel from 1991/1992 to 1999/2000 on weekdays was for social/recreation, serve passenger and education/childcare trips, while on weekends the greatest growth was for the purposes of education/childcare, personal business and work.

Number of trips by mode by Sydney residents on an average weekday, 1991/1992 and 1999/2000

The number of trips by car increased between 1991/1992 and 1999/2000 resulting in an increase in the share of car trips to 70% of all trips on an average weekday in 1999/2000, up from 67% in 1991/1992. The number of trips by train on weekdays increased by 11% from 1991/1992 to 1999/2000 and the number of bus trips increased by 5%.

Total kilometres travelled by mode, average weekday 1991/1992 and 1999/2000*

Total kilometres travelled on all modes of transport on an average weekday rose 17% from 120 million kilometres in 1991/1992 to 140 million kilometres in 1999/2000, representing an annual growth rate of 2%.

Total travel time for each person on an average weekday increased by 6 minutes (or 8%) to 79 minutes from 1991/1992 to 1999/2000.

*For residents of the Sydney Statistical Division

STRATEGIC MANAGEMENT

Provide a pivotal, coordinating role to achieve the Government's transport priorities, and act as principal advocate for public transport, particularly for public transport users

Priorities

- **INCREASE THE PROVISION AND UTILISATION OF PUBLIC TRANSPORT.**
- **CREATE SMARTER AND MORE INTEGRATED TRANSPORT SOLUTIONS TO MEET COMMUNITY PASSENGER AND FREIGHT NEEDS.**
- **MEET THE CUSTOMER'S NEEDS FOR AN EFFICIENT, RELIABLE, COST EFFECTIVE AND SAFE TRANSPORT SYSTEM.**

Performance Highlights

Steering the Government's vision for transport

The Department of Transport has been given the task to maximise the transport legacy of the "best ever" Olympic Games, for the people of NSW, by building on successful inter-agency cooperation, integration of services and a strong customer focus to deliver a more efficient and responsive transport system.

The Department's role in transport strategy planning and coordination is being expanded significantly across all transport modes. The Department's structure has been re-aligned into six functional areas to meet these objectives: Transport Finance and Asset Management; Industry Reform; Transport Masterplanning and Infrastructure; Portfolio Corporate Business and Customer Services; Transport Safety Bureau; and Transport Communications.

With this strengthened mandate to lead policy, planning and financial management across the transport portfolio, the Department will ensure key Government decisions consider all relevant factors including customer requirements, land use planning, and cross-modal considerations.

Future Directions

- Improve finance and asset management across the transport portfolio.
- Reform transport industries to improve passenger services.
- Develop masterplans and implement infrastructure projects to deliver integrated transport solutions.
- Provide a framework for safe transport outcomes.
- Achieve a more customer-focussed management across the transport portfolio.
- Communicate the public transport message.

MEETING FUTURE TRANSPORT NEEDS

Meeting the transport needs of our growing communities by planning for the future

Priorities

- **DELIVER INITIATIVES UNDER ACTION FOR TRANSPORT 2010.**
- **COORDINATE ALL TRANSPORT-RELATED STRATEGIC MASTERPLANNING AND INTEGRATION OF TRANSPORT DECISION-MAKING.**
- **DEVELOP NEW INTEGRATED AND INTER-MODAL PASSENGER AND FREIGHT REFORMS.**
- **INTRODUCTION OF A SMARTCARD BASED INTEGRATED TICKETING SYSTEM – A MAJOR CHANGE TO SYDNEY'S TRANSPORT.**

Performance Highlights

Action for Transport 2010

Integrating Land Use and Transport Planning

With the Department of Urban Affairs and Planning (DUAP) and the Roads and Traffic Authority (RTA), the Department has:

- Initiated a project to assess the impact of a range of transport infrastructure and urban development scenarios over the next two decades utilising the Sydney Strategic Travel Model.
- Released an 'Improving Transport Choice' package to assist Local Government and developers to build transport friendly urban environments, including provision for cycling and walking.

Development of a Ports and Freight Strategy for NSW

Extensive stakeholder consultation with representatives of the Ports Corporations, industry and other Government agencies is proposed for early 2002 to progress this initiative.

Integrated Ticketing Project

The Department progressed the development of a single ticket smartcard for the travelling public on all rail, light rail, monorail, bus and ferry services in Greater Sydney Region. Key goals are:

- Preferred proponent for delivery to be announced early 2002.
- Designed and developed and tested from mid 2002 to mid 2003.
- Phased implementation of the system planned for end 2003 to mid 2005.

Central Sydney Transport Strategy

With the City of Sydney, the Department began preparing a joint development strategy for future transport needs and solutions for Central Sydney.

New Travel Survey Data and Analysis – 2000/2001 Household Travel Survey

New travel forecasts with home to work travel patterns for the Sydney Region based on different land and transport scenarios up to 2026 were prepared by the Transport Data Centre.

North West Sector Rail Link

The Department completed the pre-feasibility assessment and commenced two further detailed studies.

Future Directions

- Commence long term transport planning and strategies to take NSW beyond 2010.
- Develop integrated transport strategies for key regions and sub-regions, including Central Coast and Camden, and for key corridors including North West corridor and M5 corridor.
- Stimulate public debate about the future needs and options for Central Sydney's transport and prepare specific strategies and actions to improve the coordination, provision and management of transport services in and through Central Sydney.
- Work with Parramatta City Council to develop a Transport Management and Accessibility Plan for the Parramatta CBD and assist in developing a long term transport and development strategy for the Macquarie Park area as part of DUAP's Living Centres program.
- Enhance the forecasting of non-work travel and commercial vehicle travel in Sydney for implementation in 2002 and improve databases on travel behaviour and emerging sources of change (eg. internet usage, ageing of population).

CONNECTING COMMUNITIES

Build better communities by enhancing the transport system

Priorities

- **MANAGE AND IMPLEMENT ACTION FOR TRANSPORT 2010 PROJECTS.**
- **ENSURE NEW PROJECTS AND INITIATIVES MEET THE COMMUNITY'S TRANSPORT NEEDS AND ENCOURAGE THE GREATER UPTAKE OF PUBLIC TRANSPORT.**
- **IMPROVE TRANSPORT CHOICE AND ACCESSIBILITY.**
- **CONTINUE TO ENCOURAGE A SHIFT IN TRAVEL BEHAVIOUR FROM PRIVATE VEHICLES TO PUBLIC TRANSPORT FOR MAJOR EVENTS.**
- **CONTINUE TO ENHANCE AND MARKET THE 131 500 TRANSPORT INFOLINE AND WEBSITE www.131500.com.au.**

Performance Highlights

New Public Transport Links - Action for Transport 2010

Parramatta Rail Link (PRL)

Department of Transport, State Rail Authority (SRA) and Rail Infrastructure Corporation (RIC) continue to progress the new \$1.6 billion, 28km railway linking Parramatta and Chatswood via Epping. To be built mostly in tunnel, the Parramatta Rail Link will increase the long term capacity of the CityRail network, provide rail access to new areas and help improve air quality through increased public transport use.

Rapid Bus Only Transitways

The 95km, \$800 million transitways network will deliver high quality rapid bus services throughout Western Sydney. The first stage, the \$200 million 31km Parramatta-Liverpool Transitway, is scheduled for completion in 2003. A further 7 transitways are planned to be built and operated from 2003–2010.

131 500 Transport Infoline and Website

This service continued to play a significant role for the travelling public during 2000/2001. Achievements were:

- The Call Centre handled approximately 3,400,000 enquiries. (Over 320,000 were Interactive Voice Response calls although the majority were operator assisted).
- There were substantial increases in usage of the www.131500.com.au website.
- Private bus timetables were added to the system. This allowed electronic, multi-modal trip planning across services of private and State Transit Authority buses, CityRail and Sydney and Newcastle ferries.

Interchanges

In 2000/2001, approximately \$36 million was spent on planning and development of interchanges, funded from the Parking Space Levy. Five new or upgraded interchanges and ferry wharves opened during the year:

- Strathfield Bus/Rail Interchange.
- Circular Quay Bus/Ferry Interchange.
- Manly Bus/Ferry Interchange.
- Moore Park Bus Interchange.
- Springwood Car Park.

Construction commenced on Wyong Bus/Rail Interchange, Kogarah Car Park, Holsworthy Car Park, Gosford Car Park and Engadine Bus/Rail Interchange.

Inner West Light Rail Extension

The 3.5km Inner West Extension, linking Central Sydney to Annandale, Glebe and Lilyfield, opened in August 2000. Four million passenger trips have been recorded in the first year.

Western CBD Tourist Coach Layover Facility

This facility was opened and planning continues for establishment of a permanent 55-space facility at King St Wharf with a proposed opening date at the end of 2003.

Major Event Coordination

In addition to the responsibilities for coordination of across-portfolio transport planning and operations for major events, the Department has assumed post-Olympic Games responsibility from the Olympic Roads and Transport Authority (ORTA) for transport coordination of major events at Sydney Olympic Park.

Future Directions

- Continue progress on the major public transport infrastructure projects in *Action for Transport 2010* including the North West Sector Rail Link.
- Commencement of construction of the Parramatta Rail Link and Parramatta-Liverpool Rapid Bus Transitway.
- Examine feasibility of the further extension of Light Rail in to Central Sydney.
- Assess feasibility of regular cross-regional bus services to and from Sydney Olympic Park utilising the approach used for the Olympics and other major events.
- Explore potential for a transport strategy to address the needs of Indigenous people in Western Sydney.
- Implement a unique identifier for bus stops to be linked to the 131 500 Transport Infoline and Website to improve trip planning.
- Extend the provision of 'next service' calls across all transport modes via interactive voice response systems and information kiosks.
- Further improve the trip planning functionality on the 131 500 website, including map based planning.
- Coordinate a network-wide marketing strategy to lift the profile of public transport.

SAFE AND RELIABLE SERVICES

Regulating the State's public transport services to achieve a safe and reliable system

Priorities

- **CONTINUOUS IMPROVEMENT IN PUBLIC TRANSPORT SAFETY AND RELIABILITY OF ALL TRANSPORT MODES AND AT TRANSPORT FACILITIES INCLUDING LEVEL CROSSINGS.**
- **IMPROVE REGULATION OF PUBLIC TRANSPORT PROVIDERS TO ACHIEVE MORE FLEXIBLE, COMPETITIVE AND RESPONSIVE SERVICES.**
- **ASSIST THE GOVERNMENT IN ITS RESPONSE TO THE SPECIAL COMMISSION OF INQUIRY INTO THE GLENBROOK RAIL ACCIDENT.**
- **WORK WITH THE TAXI INDUSTRY AND OTHER STAKEHOLDERS TO ENSURE QUALITY TAXI SERVICE PROVISION IN NSW, TO DRIVE TAXI REFORMS AND ENSURE COMPLIANCE WITH STANDARDS.**
- **BUILD GREATER CAPACITY TO PROVIDE TRANSPORT SUPPORT TO EMERGENCY SERVICES.**
- **CONTINUOUS IMPROVEMENT IN MARINE SAFETY IN THE PORTS AND COASTAL WATERS OF NSW.**

Performance Highlights

Rail Safety and Regulation

The Department played a key role in supporting the Special Commission of Inquiry into the Glenbrook Rail Accident, the final report of which was delivered April 2001.

Level Crossings Improvements Program

The Department secured an increase of 50% funding to \$12 million over the next 3 years for acceleration of level crossing improvements, including:

- Improvement works at 24 level crossings with preparatory/design work for a further 15 sites.
- Development of uniform NSW model for assessing risk.
- Reduction of level crossings that pose an ongoing safety risk.

Rail Reform Initiatives

A new Rail Reform function was established with a brief to review, develop and implement policies and programs to optimise the performance of the NSW Rail Industry. Initially the Department has:

- Assisted with establishment of the Office of the Co-ordinator General of Rail.
- Assisted with a development framework for reforming the rail structure for consideration by Government following the Glenbrook Special Commission of Inquiry.
- Provided input for the preparation for the sale of Freight Rail Corporation and National Rail Corporation, particularly in relation to access and Community Service Obligations.

Bus Safety

The Department completed the 2-year installation program for surveillance cameras in 4,000 Government and private buses in Sydney, Newcastle, Central Coast and Wollongong. The Department continues to progress:

- Bus door safety strategies to prevent passengers being trapped by bus doors.
- Violence Prevention Guidelines.
- Management of school student behaviour on buses.

Bus and Ferry Reform Initiatives

The Department has established a Bus and Ferry Reform function to develop options for reform of existing bus arrangements to achieve higher service levels, increased patronage and improved performance. In the first instance the Branch began:

- Reviewing the legislative and regulatory framework to ensure a more responsible and flexible contracting regime and establish industry performance standards.
- Ensuring the Department's change initiatives and new programs, eg. Transitways, Integrated Ticketing, and School Student Transport Scheme, take into account existing bus contractual arrangements.
- Ensuring the Department is actively involved in changes in contractual and other arrangements for ferry services.

Transport Information Management System (TIMS)

The Department introduced a computer-based information system allowing 'front line' staff to better manage the accreditation of road-based public transport operators and authorisation of drivers of road-based transport in NSW.

Review of the Regulatory Framework for Community and Courtesy Transport Services

With funding from the NSW Department of Ageing, Disability and Home Care (DADHC), the Department of Transport began reviewing the definition and legal status of community and courtesy transport services, operator accreditation, driver authorisations and service standards. The Review is to be completed by late 2001.

Taxi and Hire Car Safety and Regulation

With the establishment of the Taxi and Hire Car Bureau within the Department in July 2000, there has been a consolidation of the compliance and policy functions. In the first instance, the Bureau:

- Recommended amendments to the *Passenger Transport Act 1990* to require the taxi industry to meet higher service performance standards.
- Increased taxi inspections by 300% to enforce customer service and safety standards.
- Organised for the release of 180 new licences, significantly increasing taxi numbers, especially for wheelchair passengers.
- Continued to progress driver safety strategies.

Marine Safety and Regulation

The Department continued to ensure enhanced performance standards, compliance and regulatory frameworks by way of:

- Port Safety Operating Licence and renewal processes.
- Development of the First Edition of the Marine Information Manual – Lord Howe Island.
- Development of new Marine Pollution Regulations to come into force September 2001.

Future Directions

- Increase minimum standards of safety, passenger comfort and service availability in the taxi and hire car industries through proposed revisions to the *Passenger Transport (Taxi-Cab Services) Regulation 1995* and the *Passenger Transport (Private Hire Vehicle Services) Regulation 1995*.
- Establish and implement enhanced rail performance and safety regulatory functions, to be agreed to by Government, to ensure a safe, reliable and efficient rail system.
- Monitor and report on implementation of the Glenbrook Inquiry recommendations.
- Implement an improved risk identification model to guide the work of the Level Crossing Strategy Council and explore the use of education, community awareness and other strategies to minimise the occurrence of incidents at level crossings.
- Conduct research and develop strategies to improve the safety and security of public transport workers.
- Facilitate the development of safety management systems for buses, ferries, taxis and transport interchanges.
- Achieve harmonisation of marine safety on a national basis.
- Simplify regulations for the hire car industry following recommendations by the Independent Pricing and Regulatory Pricing Tribunal (IPART) to encourage greater competition.
- Develop more rigorous management of NSW rail agencies including more stringent performance requirements for Community Service Obligation funding.

ACCESS

Initiating, implementing and funding strategies to achieve equity of access to transport services for the whole community

Priorities

- IDENTIFY THE SPECIAL TRANSPORT NEEDS OF THE COMMUNITY ON AN ONGOING BASIS.
- DEVELOP STRATEGIES TO IMPROVE ACCESS FOR WHEELCHAIR USERS AND LESS MOBILE MEMBERS OF THE COMMUNITY.
- ESTABLISH INCENTIVES FOR TRANSPORT PROVIDERS TO DELIVER EQUITY OF ACCESS.
- ENSURE VALUE FOR MONEY FROM CONTRACTED SERVICE PROVIDERS TO MEET COMMUNITY ACCESS REQUIREMENTS.
- DELIVER MORE EQUITABLE PUBLIC TRANSPORT CONCESSIONS.

Performance Highlights

Purchased Transport Services

Community transport outcomes are provided under Service Contracts with the State Rail Authority, State Transit Authority, the Rail Infrastructure Corporation, FreightCorp and private transport providers.

In the 2000/2001 financial year the Department allocated \$1.26 billion to government owned transport agencies and \$419 million in grants and subsidies to private transport operators, community groups and individuals, to ensure access to transport services.

Wheelchair Accessible Taxis

Following an Independent Pricing and Regulatory Tribunal Review, the Department has continued to make Wheelchair Accessible Taxi (WAT) licences more attractive. WAT licences are free in rural centres and the Department provides interest-free loans towards the cost of purchasing accessible taxis operating in country areas.

In consultation with the industry the Department is developing enhanced performance standards for wheelchair accessible taxis.

School Student Transport Scheme (SSTS)

The Department continues to provide for the largest and most generous scheme in Australia, covering around 686,000 students (60% of all students) at an annual cost of \$385.7 million – ie. approx \$560 per child.

With a continued budgetary increase in this demand driven scheme, the Public Accounts Committee is conducting an inquiry, due to report by the end of 2001, to advise on possible future directions.

Additionally, the Department contracted PricewaterhouseCoopers to review all bus contracts in place as at 31 March 2000 with a view to identify efficiency gains in both operations and administration of the scheme.

The Department is satisfied that bus services are operating generally in accordance with the scheme's requirements, and is now working through the recommendations to help improve the administration of the scheme.

Community Transport

During 2000/2001, \$14.5 million was allocated to 136 Government and non-Government organisations under the Home and Community Care Program, the NSW Community Transport Program and Area Assistance Program.

On average, community transport providers perform 85,560 trips per month assisting 24,633 disadvantaged people.

Accessible Public Transport Standards

Last year the Department was nominated as Chair of the Commonwealth/State Consultative Committee. A sub-committee of this Committee, the Bus and Coach Accessibility Group, was set up to review draft standards through consultation with manufacturers, operators and people with disabilities.

Transport Concessions

The Department allocated \$325 million last year to subsidise concession fares across the State (excluding the SSTS). The Department funds both private and public transport operators to deliver transport

outcomes for those people who are eligible for concession fares. This includes pensioners, seniors, school students, tertiary students, apprentices, trainees, vision impaired, welfare recipients, war widows, war veterans and ex-service people.

Costs of concessions and other assistance to the SRA and STA.

	Units	1998/1999	1999/2000	2000/2001
Service				
CityRail Services				
Total passengers, including concession recipients	mill	270.5	278.7	286.2
Total concession trips	mill	75.8	78.3	82.1
Average subsidy per trip, including concessions	\$	1.56	1.42	1.64
Average subsidy per trip, excluding concessions	\$	1.03	0.88	1.05
Average concession subsidy per trip	\$	1.89	1.95	2.03
Countrylink Services				
Total passengers, including concession recipients	mill	2.5	2.4	2.2
Total concession trips	mill	1.4	1.4	1.2
Average subsidy per trip, including concessions	\$	24.53	28.33	34.67
Average subsidy per trip, excluding concessions	\$	1.41	2.33	13.83
Average concession subsidy per trip	\$	41.30	44.57	38.34
State Transit Bus and Ferry Services				
Total passengers, including concession recipients	mill	211.8	218.3	222.5
Total concession trips	mill	111.3	114.1	118.0
Average subsidy per trip, including concessions	\$	0.79	0.82	0.87
Average subsidy per trip, excluding concessions	\$	0.21	0.23	0.25
Average concession subsidy per trip	\$	1.10	1.12	1.16

Future Directions

- Work towards accrediting a Wheelchair Accessible Taxi (WAT) network.
- Continue the release of WAT licences.
- Analyse and respond to the Human Rights and Equal Opportunities Inquiry into Australian wheelchair accessible taxi services.
- Undertake a review of the Half Fare Concession Scheme.
- Review the coverage of Concession Fare Entitlements.
- Finalise review and reform of the School Student Transport Scheme (SSTS) following the conclusion of the Public Accounts Committee Inquiry.

DELIVERING RURAL AND REGIONAL SERVICES

Improving transport services in regional
and rural NSW

Priorities

- **DEVELOP A RURAL AND REGIONAL TRANSPORT STRATEGY.**
- **ENSURE REGIONAL AND RURAL PRIORITIES ARE MET FOR PUBLIC TRANSPORT FACILITIES.**
- **STRENGTHEN THE REGIONAL SERVICE DELIVERY ROLE OF THE DEPARTMENT.**
- **IMPROVE TAXI SERVICE PROVISION ACROSS STATE AND TERRITORY BORDERS.**

Performance Highlights

Rural and Regional Unit

A new unit was established in May 2001 to ensure NSW Rural and Regional Transport needs are addressed. In the first instance, the unit initiated a 2-year pilot project in Dubbo and Broken Hill to develop integrated transport strategies as a possible model for regional and rural NSW.

NSW Border Issues

Restrictions on across-border taxi services between Canberra (ACT) and Queanbeyan (NSW) have been lifted for a trial period of one year, commencing July 2001, to allow taxis to operate in both jurisdictions.

Regional Public Transport Facilities and Services

The Country Public Transport Grants Scheme provided more than \$1.6 million in grants to 22 regional councils in country NSW, to build public transport facilities and improve regional tourism links.

Intrastate Air Transport

Reduced fares and increased patronage have been among the benefits arising from the introduction of service competition on the higher volume intrastate air routes.

The year was, nonetheless, a difficult one in the aviation industry. Some smaller operators on lower volume routes had difficulty remaining viable, with 12 centres in NSW losing their air services. The NSW Government convened an Air Transport Summit in June 2001, which resulted in the establishment of a 19-member working party to find ways of meeting the ongoing aviation needs of country NSW. In addition, the Minister for Transport obtained the agreement of the Australian Transport Council to review cost pressures on small regional air operators.

Rail Services in Regional NSW

Increased funding from \$167.2 million (1999/2000) to \$256.4 million was made available to Rail Infrastructure Corporation to ensure larger parts of the rail network are open and available for use by rail operators. \$72.2 million was made in service payments to the Freight Rail Corporation.

Future Directions

- Continue to promote the development of public transport infrastructure throughout regional and rural NSW.
- Develop strategies, in partnership with local communities and all key government and non-government agencies, to ensure a better co-ordinated approach to transport planning and service delivery in rural and regional NSW.
- Develop a practical model for the better delivery of passenger transport services in rural and regional NSW and promote its use across the State.
- Process 2001 Census 'Journey to Work' data for regional NSW to provide for the first time detailed employment and travel to work statistics for regional areas.
- Monitor and evaluate the success of the cross-border trial of taxi services between Canberra and Queanbeyan.
- Continue to represent rural and regional centres at a Commonwealth level to ensure country air services are maintained.

ENVIRONMENTAL RESPONSIBILITY

Helping communities minimise the impact of transport on the environment

Priorities

- **DEVELOP AND IMPLEMENT STRATEGIES AND PROJECTS TO MINIMISE THE IMPACT OF TRANSPORT ON THE ENVIRONMENT.**
- **COLLECT DATA TO MONITOR MEASURES SUCH AS THE RATE OF VEHICLE KILOMETRES TRAVELLED AND THE RATE OF PUBLIC TRANSPORT USE.**
- **DEVELOP STRATEGIES TO ENCOURAGE BICYCLE USE AND WALKING.**
- **LEAD TRANSPORT PORTFOLIO PARTICIPATION IN MEETING STATE AND NATIONAL ENVIRONMENTAL STRATEGY AND ASSESSMENT OBLIGATIONS.**
- **IMPLEMENT SOLUTIONS TO REDUCE PASSENGER AND FREIGHT TRANSPORT IMPACTS ON THE ENVIRONMENT (EG. MARINE, NOISE AND LAND POLLUTION IMPACTS).**

Performance Highlights

Air Quality

Air pollution from motor vehicles is one of the major environmental issues in urban NSW. Since 1991, whilst public transport use has increased at 1% per annum, car travel has grown at 2% per annum.

The Metropolitan air quality challenges identified in the NSW Government's Action for Air produced the strategy to increase the use of public transport and limit the growth in car use. While the task of providing a public transport system that can compete with the car is difficult, major rail and transitway links resulting from Action for Transport 2010 will help make public transport an option for more people.

Improved integration of transport with urban development and design is one of the Department's priorities, facilitated by the new Integrating Land Use and Transport Planning package, which incorporates public transport, cycling and walking options as part of good urban design.

Marine Environmental Protection

The Department continues its vigilance in respect of its environment role in waterways transport. Last year the Department:

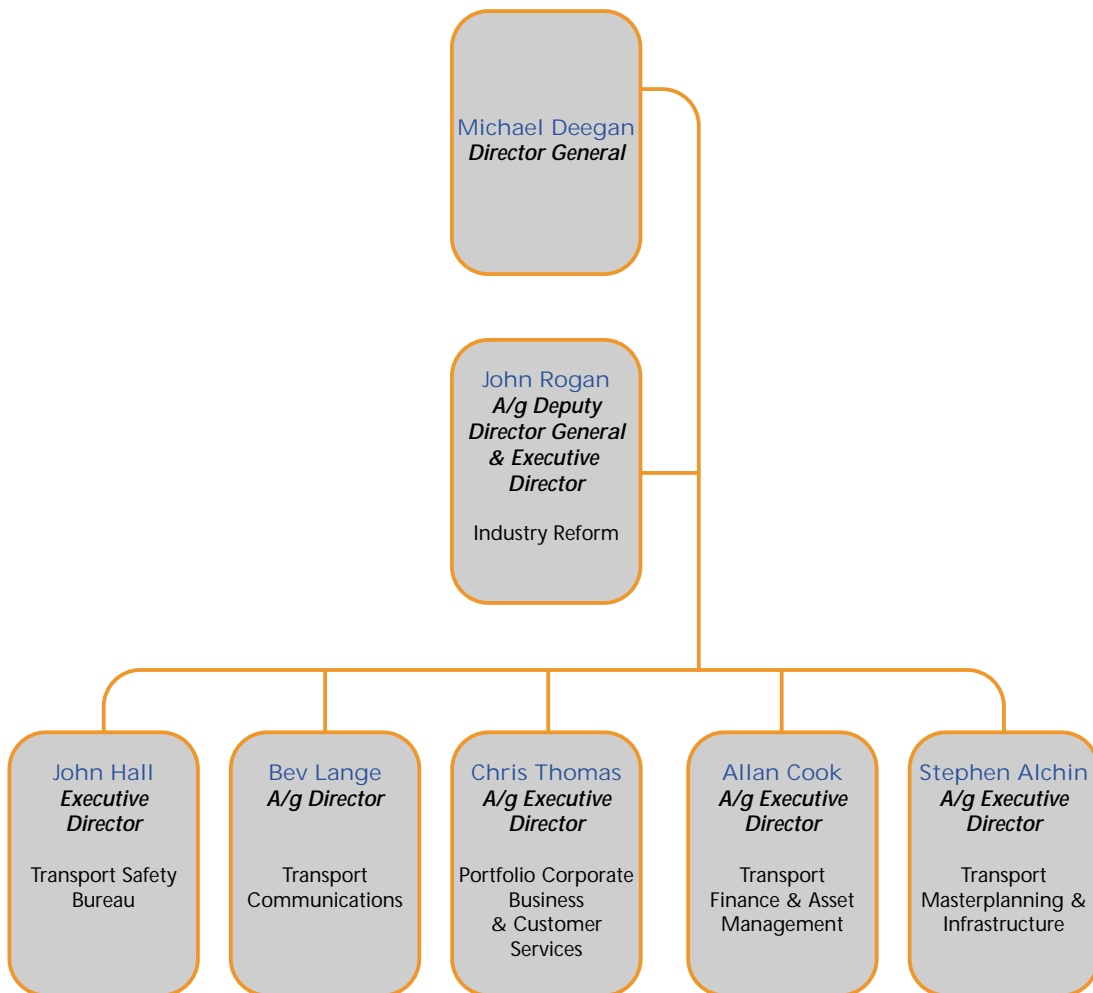

- In conjunction with the National Parks and Wildlife Service, developed a two-day introductory course on the NSW Oil Spill Response Incident Control System.
- Completed an update of the Oil Spill Response Atlas, including a CD, which sets out diagrammatically the Flora and Fauna, locations of roads, airports, boat ramps and other items of logistic support for oil spills around the ports and coastal waters in NSW.
- Began implementing those recommendations from the General Purpose Standing Committee No 5 of the Legislative Council's Reports (May 2001) relating to sensitivity ratings of marine resources on Sydney Harbour.
- Progressed its role with NSW Fisheries in the 3-year program seeking to eradicate, as far as possible, all Sabella in the Port of Eden.

Future Directions

- Continue implementing actions under Action for Transport 2010, Action for Air, Action for Bikes, and the National Greenhouse Strategy.
- Continue to enhance and expand the Secure Bicycle Locker Program including investigating opportunities for making secure bicycle lockers available for casual and incidental use.
- Provide input in the development of guidelines and strategies to improve the pedestrian environment to promote walking as a mode of transport.
- Provide input into the development of national, uniform mechanisms for managing marine pests, using, where appropriate, international benchmarks.
- Review and improve the State's marine oil and chemical spill response capabilities and provide advice and input to the National Plan to Combat Pollution of the Sea by Oil and Other Noxious and Hazardous Substances.

Organisational Structure

FINANCIALS

Financial Report 30 June 2001

Table of Contents

Statement of Financial Performance	35
Statement of Financial Position	36
Statement of Cash Flows	37
Summary of Compliance with Financial Directives	38
Program Statement – Expenses and Revenue	39
Notes to and Forming Part of the Financial Statements	40

Financial Performance Summary

2000/2001 Financial Performance

The net cost of services was \$2,101m compared with \$1,785m in 1999/2000 and the operating surplus for the year was \$29.8m compared with a deficit of \$22.8m in the previous year.

The Statement of Financial Performance shows that expenditure for 2000/2001 amounted to \$2,158m compared with a budget of \$2,166m (decrease of 0.34%) and expenditure incurred in the previous financial year of \$1,838m (increase of 17.4%). Major variances in expenses comprise:

- Other operating expenses were \$0.925m below the previous year's expenditure figure. The decrease of 6.9% was mainly achieved from a reduction in advertising and promotion.
- An increase of \$316.75m in grants and subsidies reflects the additional funding provided to rail entities following the Glenbrook Rail Accident Special Commission of Inquiry. Expenditure on the Parramatta to Chatswood rail link accounted for additional expenditure of \$48.7m and \$10.9m was incurred on Manly ferry re-fits and the new supercat ferries. A complete list of payments is shown under note 2(d).
- Other expenses increased by \$4.47m, mainly due to the promotion of transport services during the Sydney Olympic Games through the Integrated Transport Information Service. Most of these additional costs were recovered.

The revenue for the Department (other than Consolidated Fund allocations) increased from \$52.8m in 1999/2000 to \$57.4m in 2000/2001. The increase in revenue reflects the recovery of costs associated with the Department's involvement in promoting major events.

2000/2001 Budget

The original Consolidated Fund budget allocation for the year ended 30 June 2001 was \$1,802m Recurrent funding and \$44.7m for Capital funding.

The Recurrent funding was supplemented by \$281m to \$2,083m, in recognition of the difficulties in the rail industry as revealed by the Glenbrook Rail Accident Special Commission of Inquiry. Additional Recurrent funding was provided for:

- \$214.3m to the State Rail Authority for community service obligation (\$135m), capital grants (\$55.8m) to accelerate the quadruplication of the East Hills Line, replacement of life expired assets, completion of the Richmond Line, rolling stock replacements (\$6.4m), rolling stock maintenance (\$8.6m) and security guards (\$8.5m).
- Additional funding was provided to the Rail Infrastructure Corporation of \$90m for track maintenance work.
- \$5.8m to the State Transit Authority and \$5.8m to the Port Kembla Port Corporation in community service obligations.

These supplementations were partly offset by savings in RSA Redundancy payments (\$22.8m) and payments to private operators of buses, etc (\$14m).

INDEPENDENT AUDIT REPORT DEPARTMENT OF TRANSPORT

To Members of the New South Wales Parliament and the Director-General Department of Transport

Scope

I have audited the accounts of the Department of Transport for the year ended 30 June 2001. The Director-General is responsible for the financial report consisting of the statement of financial position, statement of financial performance, statement of cash flows, program statement - expenses and revenues and summary of compliance with financial directives, together with the notes thereto, and information contained therein. My responsibility is to express an opinion on the financial report to Members of the New South Wales Parliament and the Director-General based on my audit as required by sections 34 and 45F(1) of the *Public Finance and Audit Act 1983* (the Act). My responsibility does not extend to an assessment of the assumptions used in formulating budget figures disclosed in the financial report.

My audit has been conducted in accordance with the provisions of the Act and Australian Auditing Standards to provide reasonable assurance whether the financial report is free of material misstatement. My procedures included examination, on a test basis, of evidence supporting the amounts and other disclosures in the financial report, and the evaluation of accounting policies and significant accounting estimates.

These procedures have been undertaken to form an opinion whether, in all material respects, the financial report is presented fairly in accordance with the requirements of the Act, Accounting Standards and other mandatory professional reporting requirements, in Australia, so as to present a view which is consistent with my understanding of the Department's financial position, the results of its operations and its cash flows.

The audit opinion expressed in this report has been formed on the above basis.

Audit Opinion

In my opinion, the financial report of the Department of Transport complies with section 45E of the Act and presents fairly in accordance with applicable Accounting Standards and other mandatory professional reporting requirements the financial position of the Department as at 30 June 2001 and the results of its operations and its cash flows for the year then ended.

A handwritten signature in black ink, appearing to read 'A. T. Whitfield'.

A T Whitfield FCA
Deputy Auditor-General

**STATEMENT BY DEPARTMENTAL HEAD
DEPARTMENT OF TRANSPORT
Year ended 30 June 2001**

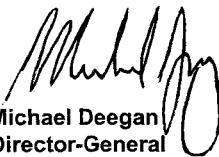

Pursuant to section 45F of the Public Finance and Audit Act 1983, I state that:

(a) The accompanying financial statements have been prepared in accordance with

- Applicable Australian Accounting Standards
- Other authoritative pronouncements of the Australian Accounting Standards Board;
- Urgent Issues group Consensus Views;
- The requirements of the Public Finance and Audit Act and Regulations; and
- The Financial reporting Directions published in the Financial Reporting Code for Budget dependent General Government Sector Agencies or issued by the Treasurer under section 9(2)(n) of the Act.

(b) The statements exhibit a true and fair view of the financial position and transactions of the Agency; and

(c) There are no circumstances, which would render any particulars included in the financial statements to be misleading or inaccurate.

Michael Deegan
Director-General

Date **22 AUG 2001**

Department of Transport
Notes to and Forming Part of the Financial Statements
For the Year ended 30 June 2001

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Reporting Entity

The Department of Transport, as a reporting entity, comprises all the operating activities and entities under its control excluding operations reported under separate financial statements for the Air Transport Council. The Department of Transport provides administrative support to this entity but is not a controlling entity.

The reporting entity is consolidated as part of the NSW Total State Sector and as part of the NSW Public Accounts.

(b) Basis of Accounting

The agency's financial statements are a general purpose financial report, which has been prepared on an accrual basis and in accordance with:

- applicable Australian Accounting Standards;
- other authoritative pronouncements of the Australian Accounting Standards Board (AASB);
- Urgent Issues Group (UIG) Consensus Views;
- the requirements of the Public Finance and Audit Act and Regulations; and
- the Financial Reporting Directions published in the Financial Reporting Code for Budget Dependent General Government Sector Agencies or issued by the Treasurer under Section 9(2)(n) of the Act.

Where there are inconsistencies between the above requirements, the legislative provisions have prevailed.

In the absence of a specific Accounting Standard, other authoritative pronouncement of the AASB or UIG Consensus View, the hierarchy of other pronouncements as outlined in AAS 6 'Accounting Policies' is considered.

Except for certain infrastructure assets, which are recorded at valuation, the financial statements are prepared in accordance with the historical cost convention. All amounts are rounded to the nearest thousand dollars and are expressed in Australian currency.

(c) Administered Activities

The agency administers, but does not control, certain activities on behalf of the Crown Entity. It is accountable for the transactions relating to those administered activities but does not have the discretion, for example, to deploy the resources for the achievement of the agency's own objectives.

Transactions and balances relating to the administered activities are not recognised as the agency's revenues, expenses, assets and liabilities, but are disclosed in Notes 24 to 27 as 'Administered Revenues', 'Administered Expenses', 'Administered Assets', and 'Administered Liabilities'.

The accrual basis of accounting and all applicable accounting standards have been adopted for the reporting of the administered activities.

(d) Revenue Recognition

Revenue is recognised when the agency has control of the good or right to receive, it is probable that the economic benefits will flow to the agency and the amount of revenue can be measured reliably. Additional comments regarding the accounting policies for the recognition of revenue are discussed below:

- (i) **Parliamentary Appropriations and Contributions from other Bodies:**
Parliamentary appropriations and contributions from other bodies (including grants and donations) are generally recognised as revenues when the agency obtains control over the assets comprising the appropriations/contributions. Control over appropriations and contributions is normally obtained upon the receipt of cash.

An exception to the above is when appropriations are unspent at year-end. In this case the authority to spend the money lapses and generally the unspent amount must be repaid to the Consolidated Fund in the following year. As a result, unspent appropriations are accounted for as liabilities rather than revenue.

The liability is disclosed in Note 16 as part of 'other current liabilities'. The amount will be repaid and the liability will be extinguished next financial year. Any liability in respect of transfer payments is disclosed in Note 24 'Administered assets and liabilities'.

- (ii) **Sale of Services:**
Revenue from the sale of services comprises revenue from the provision of services ie user charges. User charges are recognised as revenue when the agency obtains control of the assets that result from them.
- (iii) **Investment Income:**
Interest revenue is recognised as it accrues.
- (iv) **Grants and contributions:**
Grants and contributions relating to reimbursement of costs incurred are recognised as revenue when the services are provided.

(e) Employee entitlements

- (i) **Wages and Salaries, Annual Leave, Sick Leave and oncosts:**
Liabilities for wages and salaries, annual leave and vesting sick leave are recognised and measured as the amount unpaid at the reporting date at current pay rates in respect of employees' services up to that date. Unused non-vesting sick leave does not give rise to a liability as it is not considered probable that sick leave taken in the future will be greater than the entitlements accrued in the future. The outstanding amounts of payroll tax, workers' compensation insurance premiums and fringe benefits tax, which are consequential to employment, are recognised as liabilities and expenses where the employee entitlements to which they relate have been recognised.
- (ii) **Long Service Leave and Superannuation:**
The agency's liability for long service and superannuation are assumed by the Crown Entity. The agency accounts for the liability as having been extinguished resulting in the amount assumed being shown as part of the non-monetary revenue item described as 'Acceptance by the Crown Entity of Employee Entitlements and other Liabilities'. Long service leave is measured on a nominal basis. The nominal method is based on the remuneration rates at year-end for all employees with five or more years of service. It is considered that this measurement technique produces results not materially different from the estimate determined by using the present value basis of measurement.

The superannuation expense for the financial year is determined by using the formulae specified in the Treasurer's Directions. The expense for certain superannuation schemes (ie. Basic Benefit and First State Super) is calculated as a percentage of the employees' salary. For other superannuation schemes (ie. State Superannuation Scheme and State Authorities Superannuation Scheme), the expense is calculated as a multiple of the employees' superannuation contributions.

(f) Insurance

The agency's insurance activities are conducted through the NSW Treasury Managed Fund scheme of self-insurance for Government agencies. The expense (premium) is determined by the Fund Manager based on past experience.

(g) Accounting for Goods and Services (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except:

- The amount of GST incurred by the agency as a purchaser that is not recoverable from the Australian Taxation Office is recognised as part of the cost of acquisition of an asset or as part of an item of expense.
- Receivables and payables are stated with the amount of GST included.

(h) Acquisition of Assets

The cost method of accounting is used for the initial recording of all acquisitions of assets controlled by the agency. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition.

Assets acquired at no cost or for nominal consideration are initially recognised as assets and revenues at their fair value at the date of acquisition.

Fair value means the amount for which an asset could be exchanged between a knowledgeable, willing buyer and a knowledgeable, willing seller in an arm's length transaction.

Where settlement of any part of any cash consideration is deferred, the amounts payable in the future are discounted to their present value at the date of acquisition. The discount rate used is the incremental borrowing rate, being the rate at which a similar borrowing could be obtained.

(i) Plant and equipment

Plant and equipment costing \$5,000 and above individually are capitalised.

(j) Depreciation

Depreciation is provided for on a straight line basis against all depreciable assets so as to write off the depreciable amount of each asset as it is consumed over its useful life to the entity. The principal rates used for office furniture and equipment were 14.3% and for computer equipment and systems 25%.

The Agency owns a number of physical non-current assets that have been fully depreciated. These consist mainly of office equipment and computers and it is considered that their value would be of immaterial value if re-recognised.

(k) Leased Non-Current Assets

A distinction is made between finance leases which effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to ownership of leased assets, and operating leases under which the lessor effectively retains all such risks and benefits.

Where a non-current asset is acquired by means of a finance lease, the asset is recognised at its fair value at the inception of the lease. The corresponding liability is established at the same amount. Lease payments are allocated between the principal component and the interest expense.

Operating lease payments are charged to the Statement of Financial Performance in the periods in which they are incurred.

(l) Receivables

Receivables are recognised and carried at the original invoice amount less a provision for any uncollectable debts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off as incurred.

(m) Payables

These amounts represent liabilities for goods and services provided to the agency.

(n) Private Sector Provided Infrastructure

The Agency's reversionary interest in the Ultimo-Pyrmont Light Rail Train system has been valued by reference to the emerging share of the gross replacement cost of the asset apportioned over the period of the agreement (Note 12).

(o) Grants and subsidies

Grants and subsidies payable under the private bus operators scheme and community and certain individuals scheme are accounted for on an accrual basis in accordance with the various contractual and scheme rates applicable. Grants and subsidies payable to State-owned transport agencies are accounted for when paid.

(p) Maintenance Expenses

In accordance with Treasury guidelines the Agency is not required to report maintenance expenditure as a separate Statement of Financial Performance item as no major assets were owned at 30 June 2001.

(q) Budgeted amounts

The budgeted amounts are drawn from the budgets as formulated at the beginning of the financial year and with any adjustments for the effects of additional appropriations, S21A, S24 and or S26 of the Public Finance and Audit Act 1983.

The budgeted amounts in the Statement of Financial Performance and the Statement of Cash Flows are generally based on the amounts disclosed in the NSW Budget Papers (as adjusted above). However, in the Statement of Financial Performance, the amounts vary from the Budget Papers, as the opening balances of the budgeted amounts are based on carried forward actual amounts ie. per the audited financial statements (rather than carried forward estimates).

(r) Administering Restructure

The transfer of net assets between agencies as a result of administrative restructuring is treated as a direct adjustment to the opening balance of 'Accumulated Fund'. This treatment is required by Treasury Circular 99/7 of 30 June 1999.

(s) Financial Instruments

Financial instruments give rise to positions that are a financial asset of either the Agency or its counter-party and a finance liability of the other party. For the Agency these include cash at bank, receivables, trade creditors and accruals. In accordance with AAS 33 'Presentation and Disclosure of Financial Instruments' information is disclosed in Note 28.

(t) Reclassification of Comparatives

As a result of applying AAS 1 'Statement of Financial Performance' and AAS36 'Statement of Financial Position', the format of the Statement of Financial Performance (previously referred to as the Operating Statement) and the Statement of Financial Position has been amended. As a result of applying these Accounting Standards, a number of comparative amounts were represented or reclassified to ensure comparability with the current reporting period.

(u) Change in accounting policies

As required by Treasury the Agency has changed the accounting policy for the planning, development and construction of interchanges. Under this new policy the costs of these activities are capitalised under Infrastructure Systems pending completion of the projects when the costs are expensed under 'Construction Costs of Completed Assets transferred to Transport Agencies'. The financial impact of this change in accounting policy is to reduce the net cost of services and increase the assets by \$15.6m.

	2001	2000
	\$000	\$000

2. EXPENSES

(a) Employee Related Expenses

Comprise the following specific items:

Salaries and wages (including recreation leave)	14,840	13,698
Superannuation	1,421	1,325
Long service leave	478	557
Workers' compensation insurance	143	148
Payroll tax and fringe benefit tax	1,143	1,122
Redundancies	380	1,672
	<u>18,405</u>	<u>18,522</u>

During the year salaries and oncost of employees (\$362,000) (1999/2000 – \$481,000) engaged on specific capital programs were charged to those projects (Note 2(d)).

(b) Other operating expenses

Accommodation		
Property rentals	1,443	1,316
Other property costs	142	125
External services		
Consultants	1,018	1,251
Contractors	2,344	2,151
Legal Services	1,034	1,223
Audit fees	75	67
Others	477	93
Information Technology		
Computer leasing	254	159
Communication lines	72	–
Consultants	146	226
Contractors	301	483
Other computer costs	279	–
Motor Vehicle running expenses

4. CONDITIONS ON GRANTS AND CONTRIBUTIONS RECEIVED

In 2000/2001 the Agency received the conditional grants itemised in Note 3(d). These grants can only be used for specific purposes. The agency has fully complied with these conditions and accordingly there is no liability for repayment of these grants arising from failure to meet these conditions.

5. APPROPRIATIONS

Recurrent appropriations

Total recurrent drawdowns from Treasury (per Summary of Compliance)	2,083,532	1,770,782
Less: Repaid to Consolidated Fund	-	33,430
Less: Liability to Consolidated Fund (per Summary of Compliance)	668	-
Recurrent appropriations (Statement of Financial Performance)	2,082,864	1,737,352

Capital appropriations

Total capital drawdowns from Treasury (per Summary of Compliance)	45,979	23,340
Less: Liability to Consolidated Fund (per Summary of Compliance)	-	-
Capital appropriations (Statement of Financial Performance)	45,979	23,340

2001	2000

6. INDIVIDUALLY SIGNIFICANT ITEMS

Loss on transfer of net assets to Waterways Authority (Note 17 and 18)	–	(1,327)
Shares acquired in National Rail Corporation for no consideration (Note 3(e) and 11)	–	14,475
Reinstatement of infrastructure systems previously expensed (Note 3(e))	19,019	–
Transfer of shares in National Rail Corporation for no consideration (Note17)	111,875	–
	130,894	13,148

The transfer of the shares in the National Rail Corporation to the NSW Treasury is reported as an adjustment to opening equity (Note17).

7. ACCEPTANCE BY THE CROWN ENTITY OF EMPLOYEE ENTITLEMENTS AND OTHER LIABILITIES

The following liabilities and/or expenses have been assumed by the Crown Entity

Superannuation	1,444	1,325
Long service leave	486	557
Payroll tax on superannuation	92	85
	2,022	1,967

8. PROGRAM INFORMATION

The Agency has 3 programs namely:

Program 67.1.1 – Development, Co-Ordination and Planning of Transport Services

Objective: To meet the transport needs of the New South Wales community in an optimal way, balancing social and economic objectives.

Program Description: Development of transport objectives in New South Wales and the overall strategies and policies for achieving them. Advice to the Minister, implementation of self-regulation by the private sector. Development of appropriate monitoring and regulatory activities.

Program 67.2.1 – Assistance for General Track and Freight Services

Objective: To assist freight transport users confronted with long distance to markets and ports and to maintain the rail network at the existing standard.

Program Description: Provision of subsidies to Freightcorp for rail freight services, which it would not otherwise provide at the price charged to freight users, and a subsidy to the Rail Infrastructure Corporation to ensure rail infrastructure is maintained at its existing standard.

Program 67.2.2 – Purchase of Public Transport Services

Objective: To improve community mobility on public and private transport.

Program Description: Provision of funds to the State Rail Services, State Transit Authority, Rail Infrastructure Corporation and private transport operators for services and concessions which would not otherwise be provided by them at the current fare and/or services levels, and for new rail infrastructure, to enable rail entities to operate more efficiently and to community groups and certain individuals for particular services.

	\$000	\$000

9. CURRENT ASSETS - CASH

Cash at bank and on hand	14,153	9,926
	<u>14,153</u>	<u>9,926</u>

For the purposes of the Statement of Cash Flows, cash includes cash on hand and cash at bank. Cash assets recognised in the Statement of Financial Position are reconciled to cash at the end of the financial year as shown in the Statement of Cash Flows as follows:

Cash (per Statement of Financial Position)	14,153	9,926
Closing Cash and Cash equivalents (per Statement of Cash Flows)	<u>14,153</u>	<u>9,926</u>

Cash on hand includes unspent parking space levy funds of \$2.1m and taxi accreditation fees of \$1.9m (1999–2000 – \$881,321).

These funds earn interest at the going Treasury interest rate.

These funds can only be used for specific purposes.

Parking space levy fund

Cash on hand at 1 July	–	1,330
Parking space levy received	36,575	20,500
Payments made in year	(34,452)	(21,830)
Cash on hand at 30 June	<u>2,123</u>	<u>–</u>

10. CURRENT/NON-CURRENT ASSETS - RECEIVABLES

CURRENT RECEIVABLES:

Sale of goods and services	5,042	8,699
Goods and Services Tax – recoverable	4,607	169
Special purpose Taxi Loans	113	113
Less: Provision for doubtful debts	–	–
	<u>9,762</u>	<u>8,981</u>

NON-CURRENT RECEIVABLES:

Special purpose Taxi Loans	144	201
	<u>144</u>	<u>201</u>

Special purpose Taxi Loans

Later than 1 year but not later than 2 years	49	49
Later than 2 years but not later than 3 years	49	49
Later than 3 years but not later than 4 years	46	49
Later than 4 years but not later than 5 years	–	54
	<u>144</u>	<u>201</u>

Reconciliation of the carrying amounts of non-current receivables at the beginning and end of the current and previous financial year are set out below:

Carrying amount at 1 July	201	190
New loans made in the year	91	111
Loan instalments due in year	(148)	(100)
Carrying value at 30 June	<u>144</u>	<u>201</u>

2001
\$000

2000
\$000

11. NON-CURRENT ASSETS - OTHER FINANCIAL ASSETS

State's equity in National Rail Corporation	-	111,875
	-	111,875

Reconciliation of the carrying amounts at the beginning and end of the current and previous financial year are set out below:

Carrying amount at 1 July	111,875	97,400
Shares acquired during the year	-	14,475
Transfer of shares to NSW Treasury	(111,875)	-
Carrying value at 30 June	-	111,875

In the current financial year the Agency transferred the State's equity in the National Rail Corporation to the NSW Treasury pursuant to the sale of the Corporation. The transfer was made for nil value.

12. NON-CURRENT ASSETS - FIXED ASSETS

Leasehold Improvements

At cost	680	93
Less: Accumulated depreciation	(138)	(93)
	542	-

Plant and equipment

At cost	5,332	6,153
Less: Accumulated depreciation	(2,473)	(4,626)
	2,859	1,527

Infrastructure Systems

At cost - in course of construction	15,649	-
At valuation - Ultimo Pyrmont Rail Train System	18,243	13,604
	33,892	13,604

TOTAL PROPERTY, PLANT AND EQUIPMENT AT NET BOOK VALUE 37,293 15,131

Reconciliation of the carrying amounts of each class of leasehold improvements, plant, equipment and infrastructure systems at the beginning and end of the current and previous financial year are set out below:

2001	Leasehold Improvements \$000	Plant and equipment \$000	Infrastructure systems \$000	Total \$000
Carrying amount 1 July	-	1,527	13,604	15,131
Additions	587	2,062	20,288	22,937
Depreciation expense	(45)	(730)	-	(775)
Transfer to other Transport agencies	-	-	-	-
Carrying amount 30 June	542	2,859	33,892	37,293

2000	Leasehold Improvements \$000	Plant and equipment \$000	Infrastructure systems \$000	Total \$000
Carrying amount 1 July	-	1,952	9,058	11,010
Additions	93	588	4,546	5,227
Depreciation expense	(93)	(684)	-	(777)
Transfer to other Transport agencies	-	(329)	-	(329)
Carrying amount 30 June	-	1,527	13,604	15,131
			2001 \$000	2000 \$000

13. CURRENT ASSETS OTHER

Prepayments made under various schemes	5,991	7,487
Prepaid expenses	268	163
	6,259	7,650
Carrying amount at start of year	7,650	6,524
Additions	6,259	7,650
Amortisation expense	(7,650)	(6,524)
Carrying amount at end of year	6,259	7,650

14. CURRENT LIABILITIES - PAYABLE

Creditors	691	620
Accruals	20,728	29,229
Prepaid Income	3,621	904
	25,040	30,753

15. CURRENT LIABILITIES - EMPLOYEE ENTITLEMENTS

Accrued salaries and payroll tax	472	367
Provision for recreation leave	2,536	1,492
	3,008	1,859

16. CURRENT/NON-CURRENT LIABILITIES - OTHER

CURRENT LIABILITIES - OTHER		
Liability to Consolidated Fund	668	-
Lease Liability	49	230
	717	230
NON-CURRENT LIABILITIES - OTHER		
Lease Liability	73	108
	73	108

The lease liability represents the rent-free period for office accommodation in the Sydney central business district and Parramatta. The lease liability is reduced by allocating future rental payments between rental expense and reduction in the liability.

	2001 \$000	2000 \$000
17. CHANGES IN EQUITY		
Balance at the beginning of the financial year	120,814	144,920
Changes in equity – transactions with Owners as owners		
Transfer of shares in National Rail Corporation for no consideration (Note 11)	(111,875)	–
Transfer of net assets on restructure of administrative functions (Note 6,18)	–	(1,327)
Total	(111,875)	(1,327)
Changes in equity – other than transactions with owners as owners		
Surplus/(deficit) for year	29,834	(22,779)
Total	29,834	(22,779)
Balance at the end of the financial year	38,773	120,814

18. DECREASE IN NET ASSETS FROM ADMINISTRATIVE RESTRUCTURE

As a result of an administrative restructure the following assets and liabilities were transferred from the Agency to the Waterways Authority on 28 July 1999.

Assets:

Cash	–	430
Receivables	–	73
Investments	–	1,750
Plant and equipment	–	328
Total assets	–	2,581

Liabilities:

Accounts payable	–	896
Employee entitlements	–	358
Total liabilities	–	1,254
Net assets transferred	–	1,327

19. COMMITMENTS FOR EXPENDITURE

(a) Capital Commitments

Aggregate capital expenditure contracted at balance date and not provided for:

	41,902	54,153
	41,902	54,153
Not later than 1 year	34,092	33,088
Later than 1 year but not later than 5 years	7,810	14,465
Later than 5 years	–	6,600
Total (including GST)	41,902	54,153

(b) Other Expenditure Commitments

Aggregate other expenditure contracted for at balance date and not provided for:

Not later than 1 year	300	55
Later than 1 year but not later than 5 years	–	–
Later than 5 years	–	–
Total (including GST)	300	55

	2001 \$000	2000 \$000
(c) Operating lease commitments		
Future non-cancellable operating lease rentals not provided for and payable:		
Not later than 1 year	2,884	2,046
Later than 1 year but not later than 5 years	8,505	2,596
Later than 5 years	1,008	153
Total (including GST)	12,397	4,795

The Agency leases its motor vehicles, computers and office accommodation.

20. CONTINGENT LIABILITY

The Ultimo Pyrmont Light Rail Transit (UPLRT) system was built at a cost of \$87.5m upon land leased by the State to the owners/operators of the system, the Sydney Light Rail Company (SLRC). The project contracts contain certain indemnities and guarantees in the event of enforced termination. It provides that should the termination occur after the first year of start of operations the contingent liability is to be assessed using varying formulas depending on the cause of termination, and based on market valuations. As early termination is considered remote, no attempt has been made to estimate the contingent liability beyond the first year of operations.

The Agency has commissioned a private sector study for the extension of the light rail in the Sydney central business district. The Department may be liable for reimbursement of the study costs if the extension does not go ahead. The compensation is not considered to be material.

In addition the Department is involved in a number of litigation cases. At the balancing date the damages if any cannot be quantified but are not considered to be material.

21. BUDGET REVIEW

Net Cost of Services

The net cost of services for the year ended 30 June 2001 is \$44.041m below the budget of \$2.145bn. The major contributions to this saving include:

- **Grants and subsidies** are \$24m below budget due to savings in payments to private bus operators and the change in accounting policy (Note 1(u)).
- **Other expenses** are \$13.5m above budget due to additional expenditure incurred in connection with the integrated transport information system. The majority of these costs were recovered from other transport agencies and the revenue is included under grants and contributions.
- **Operating expenses** increased by \$2.5m compared to budget. The increase is attributable to various activities undertaken by the department in accordance with Government transport policies. Most of these additional costs were recovered from other transport agencies and the revenue is included under grants and contributions.
- **Sale of goods and services** are \$4.09m above budget due to higher sale of services, recoupment of salaries and commission on port cargo access charges.
- **Retained taxes and fines** related to taxi drivers' accreditation fees collected for use by the Taxi Advisory Committee. The fees collected during the year amounted to \$1.566m of which only \$600,000 was spent during the year and is reported in the Statement of Financial Performance with the balance reported as prepaid revenue under current liabilities.

- **Grants and contributions:** At \$26.2m, grants and contributions are \$13.7m above budget. This increase is attributable to the cost of the integrated transport information system and integrated ticketing system recouped from other transport agencies.
- **Other revenue** includes the financial impact of the change in the accounting policy (Note 1(u)).

Assets and Liabilities

The main changes in the statement are set out below:

- Cash has decreased by \$12.8m compared to the budget due to reduction in accounts payable, and outstanding Goods and Services Tax recoverable.
- The higher receivables are due to lower debtors offset by Goods and Services Tax recoverable.
- **Infrastructure Systems** include the cost of infrastructure projects (such as bus/rail interchanges and commuter carparks) in course of construction. As discussed in Note 1(u) the Department has changed its accounting policy so that the cost of these projects is capitalised during construction phase and then expensed on completion when the assets are transferred to other transport agencies for no consideration.
- **Financial assets:** This asset included the carrying value of the shares in the National Rail Corporation, which were transferred to the Treasurer to facilitate the sale of this corporation.

	2001	2000
	\$000	\$000

22. RECONCILIATION OF CASH FLOWS FROM OPERATING ACTIVITIES TO NET COST OF SERVICES

Net Cash (used) on Operating Activities	14,725	(47,252)
Cash flows from Government	(2,130,067)	(1,757,725)
Non-cash emerging value of private sector provided infrastructure	4,640	4,545
Donated assets transferred to National Rail Corporation	-	14,475
Reinstatement of infrastructure systems		
Previously written off	19,019	-
Completed infrastructure assets	(13,882)	-
Acceptance by the Crown Entity of Employee Entitlements	(1,465)	(1,526)
Goods and Services Tax	4,438	-
Depreciation	(775)	(777)
(Decrease)/Increase in prepayments	(1,414)	1,821
(Decrease)/Increase in receivables	(3,635)	3,055
Decrease/(Increase) in creditors	7,385	(2,054)
Net Cost of Services	(2,101,031)	(1,785,438)

23. NON-CASH FINANCING AND INVESTING ACTIVITIES

During the year the Agency undertook the following non-cash financing and investing activities:

Employees' entitlements and liabilities assumed by the Crown Entity (Note 7)	2,022	1,967
Shares acquired in National Rail Corporation for no consideration (Note 3(e) and 11)	-	14,475
Net assets transferred to Waterways Corporation (Note 6)	-	1,327
National Rail Corporation shares transferred to NSW Treasury (Note 6)	111,875	-
	113,897	17,769

	2001	2000
	\$000	\$000

24. ADMINISTERED ASSETS AND LIABILITIES

Administered Assets

Cash ⁽¹⁾	286	337
Receivables ⁽²⁾	1,009	1,282
Total Administered Assets	1,295	1,619

Administered Liabilities

Payables	-	-
Total Administered Liabilities	-	-

(1) This amount represents the unspent funds transferred from the Crown Entity for eventual expenditure on remediation of Lady Robinson's Beach, Botany Bay.

(2) Port Cargo Access Charge accrued from Port Corporations for payment to the Crown Entity.

25. ADMINISTERED REVENUE - DEBTS WRITTEN OFF

Rail operators accreditation fees	-	-
	-	-

26. ADMINISTERED REVENUE - CROWN REVENUE

Private transport operators fees	9,195	4,728
Rail operators accreditation fees	1,386	1,545
Fines	43	93
Port Cargo Access Charge	11,130	11,043
	21,754	17,409

27. ADMINISTERED REVENUE - SCHEDULE OF UNCOLLECTED AMOUNTS

Uncollected administered revenue	1,009	1,282
	1,009	1,282

	30 Days \$000	90 Days \$000	Total \$000
Receivables – rail accreditation fees – 2001	953	55	1,008
– 2000	1,212	70	1,282

No provision for doubtful debts has been made as in the opinion of the Agency all debts will be collected.

28. FINANCIAL INSTRUMENTS

Cash

Cash comprises cash on hand and bank balances within the Treasury Banking System. Interest is earned on daily bank balances at the monthly average NSW Treasury Corporation 11am unofficial cash rate adjusted for a management fee to Treasury.

Receivables

All trade debtors are recognised as amount receivable at balance date. Collectability of trade debtors is reviewed on an ongoing basis. Debts, which are known to be uncollectable are written off. A provision for doubtful debts is raised when some doubt as to collection exists. The credit risk is the carrying amount (net of any provision for doubtful debts). No interest is earned on trade debtors. The carrying amount approximates net fair value. Sales are made on 30 days terms.

Trade creditors and Accruals

The liabilities are recognised for amounts due to be paid in the future for goods or services received, whether or not invoiced. Amounts owing to suppliers (which are unsecured) are settled in accordance with the policy set out in Treasurer's Direction 219.01. If trade terms are not specified, payment is made no later than the end of the month following the month in which an invoice or a statement is received. Treasurer's Direction 219.01 allows the Minister to award interest up to 20% for late payment.

(a) Interest Rate Risk

Interest rate risk is the risk that the value of the financial instruments will fluctuate due to changes in market interest rates. The exposure to interest rate risk and the effective interest rates of financial assets and liabilities both recognised and unrecognised at 30 June 2001 are as follows:

Financial Instruments

	Floating Interest rate		Non-interest Bearing		Total Carrying amount as per statement of Financial Position		Weighted average effective interest rate	
	2001 \$000	2000 \$000	2001 \$000	2000 \$000	2001 \$000	2000 \$000	2001 %	2000 %
Financial Assets								
Cash	14,153	9,926	-	-	14,153	9,926	4.50	4.00
Receivables	-	-	9,762	8,981	9,762	8,981	N/A	N/A
Total	14,153	9,926	9,762	8,981	23,915	18,907		
Financial Liabilities								
Payable	-	-	28,838	32,950	28,838	32,950	N/A	N/A
	-	-	28,838	32,950	28,838	32,950		

(b) Credit Risk

Credit risk is the risk of financial loss arising from another party to a contract or financial position failing to discharge a financial obligation thereunder. The agency was not exposed to a credit risk from carrying amounts of financial assets in the Statement of Financial Position.

29. AFTER BALANCE DATE EVENTS

No events occurred after the reporting date that altered conditions existing as at 30 June 2001.

30. OLYMPIC AND PARALYMPIC GAMES

During the year there were 120 departmental employees (staff costs \$561,000) allocated directly and specifically to the Sydney 2000 Olympic and Paralympic Games activities. In addition a further 6 employees (staff costs \$109,000) were seconded to other agencies on initiatives directly and specifically related to the Games. No employees were assigned to Games activities in 1999/2000.

APPENDIX 1: Freedom Of Information (FOI) Act

During the reporting period 1 July 2000 to 30 June 2001, the Department of Transport received 32 requests for information under the FOI Act.

The requests related to the following subjects:

- Detailed information regarding taxi licences owned by a particular person
- A copy of the Cotton report into the private hire vehicle industry
- A copy of the Performance Assessment Regime (PAR) for commercial bus contracts in New South Wales
- Access to personal file
- A copy of a report into the cut and cover option in relation to the Parramatta Chatswood Rail Link
- Access to letters of complaint about applicant's son and his conduct on a school bus service
- Copies of drafts, briefs and submissions regarding the method of spoil removal, as part of the EIS process of the Parramatta Rail Link
- An updated timetable for the Parramatta Chatswood Rail Link
- The titles of and the remuneration paid to all media relations and communications personnel employed by the NSW Department of Transport and the Minister for Transport
- Details of all expenditure incurred by the Minister for Transport's office since 1997
- Copies of all documents relating to the 1998 trial of electric buses, conducted by the Department and any evaluation reports of the trial
- Details of the number of directions given under sections 51 and 52 of the Rail Safety Act during 1993 and 1994 and the number of notifications received by the Director General under Section 56 of the Rail Safety Act for the same period and between 1 January to 31 August 2000
- A copy of the report and subsequent findings of acoustic and ambient noise monitoring in relation to the Chatswood to Parramatta Rail Link, east of Macquarie Park
- All documents, photographs and video footage submitted to the School Student Transport Scheme appeals panel by the Department of Transport in relation to a student's appeal
- All documents relating to an alleged oil or contaminant spill at Lord Howe Island emanating from the vessel, Island Trader, on or around 30th April 2000
- A copy of the Chris Forde Report into allegations of corruption on Lord Howe Island
- Documents concerning the assessment of risk management practices within the State Rail Authority commissioned by the Department of Transport since 1995
- Documents provided to the Minister for Transport between 1995 and 1999 regarding notifications received by the Director General of Transport in accordance with section 56 of the Rail Safety Act
- A copy of any report into a train derailment at Cobar on the 24 December 1999
- Access to the draft report concerning the heavy rail upgrading of the rail line between Epping and Rouse Hill
- Information concerning the Department's participation in Rail Asia 2000
- Documents relating to the basis on which Transrapid's bid to build the very fast train was assessed, against the 'no net cost to Government' criteria
- All documents relating to the proposed extension of Light Rail beyond Lilyfield
- All documents relating to the proposed extension of Light Rail beyond the Central tram stop into the Sydney CBD
- Copies of all complaints made against a school student and all reports, investigations and memorandums made arising from those complaints. Copies of all reports, memorandums and in particular reports by

PricewaterhouseCoopers relating to a particular bus run and the parameters by which contract payments are determined by PricewaterhouseCoopers

- The amount of funding Community Service Obligation, or other Government fare-funded fare reimbursement, received by State Transit for bus travel for 64 types of tickets
- Documents identifying and describing level crossing accidents that have occurred each year from 1 July 1995 and documents identifying the type of warning systems in place at each level crossing, where an accident has occurred since 1 July 1995
- A copy of the documents described in the Department's Annual Report as the 'interim reports of the review of Competitive Neutrality in NSW rail freight, undertaken by Booze Allan & Hamilton'
- A copy of the Department of Transport's feasibility study of the Cootamundra to Tumut rail line
- The rail safety report into the derailment of a train at Kingsgrove on 6 October 2000
- Copies of all documents regarding the Price Waterhouse audit of the School Student Transport Scheme
- Documents concerning an alleged oil spill at Lord Howe Island

The statistics of these applications are as follows:

Determined under 35 days	19
Determined over 35 days	0
Unable to be determined	1
Transferred to another agency	3
Application withdrawn	4
Refused to process (unreasonable diversion of resources)	1
Not processed (not a valid FOI request)	1
Currently processing, yet to be determined	3

Of the 19 applications determined:

9 applicants received all the documents requested
6 applicants received a partial release of the documents requested
4 received no documents

Internal Reviews

The Department received one request for an internal review during the reporting period.

APPENDIX 2: Publications

- 1999/2000 Annual Report
- Brochure – The King Street Bus/Coach Layover
- Bus Users in Sydney, 2000
- Cycling in Sydney: Bicycle Ownership and Use
- Estimating Commercial Travel Movements in an Urban Area
- Household Travel Survey Summary Report 2001: Sydney Statistical Division
- Measuring and Understanding the Demand for Car Travel
- Re-estimation of the Sydney Strategic Travel Model
- An Australian Modification of The Alcohol Use Disorders Identification Test (for bus drivers)
- Implementing the Performance Assessment Regime for Commercial Bus Contracts: Discussion Paper No. 2

APPENDIX 3:

APPENDIX 8:
NSW Department Of Transport Guarantee Of Service

The Guarantee of Service has been an effective tool in establishing our service standards. Our Guarantee of Service is:

We promise to the very best of our ability, to respond to your needs efficiently, promptly, courteously and fairly, and:

- Tell you who we are on the phone, in letters or when you meet us, so you can contact the same person again if you need to.
- Return your phone calls as quickly as possible and always within one working day.
- Respond to your letters within two weeks at most.
- Give a clear response to your enquires.
- As much as possible, give decisions, advice and support 'on the spot' using our frontline handling procedures for complaints and information.
- Pursue all problems and complaints about transport services within the relevant service provider, and tell you their response and what will happen.
- Do our best to understand your business objectives and help you meet them while recognising, as you do, that wider public and transport consumer interests also need to be supported.
- Stand by our decisions and advice – and accept the consequences if they turn out to be wrong.
- If we can't agree to your requests, explain your options and give you ample opportunity to present your case.
- If we can't resolve your problems ourselves, put you in touch with someone who can.
- Ensure that when confidential matters are at stake, confidentiality is maintained.

No amendments were made to the Guarantee of Service in the reporting period.

APPENDIX 9:
Number Of Employees (Effective Full Time)

<u>Year</u>	<u>EFT</u>
2000/2001	278

There were no exceptional movements in salaries during the year. All pay rises were in accordance with public sector rises for Senior Executive Service and other employees.

APPENDIX 10:

Chief and Senior Executive Service (As at 30 June 2001)

CHIEF AND SENIOR EXECUTIVE SERVICE POSITIONS AND LEVELS

Level	2000/2001
Level 1	1
Level 2 – (four acting)	5
Level 3	1
Level 4	0
Level 5 – (acting)	1
Level 6	2
Level 7	1
Chief and Senior Executive Service	2000/2001
Female Executives – (two acting)	3

PRINCIPAL OFFICERS (AS AT 30 JUNE 2001)

Grade	Name
SES 1	Isabelle Meyer PhD, MA, BA (Hons) Acting Principal Policy Officer
SES 2	Paul Hayes BA Acting Director, Cabinet & Executive Services
SES 2	Barry Barford Dip Bus, MCIT, SFCDA, DipCD Acting Director, Special Projects
SES 2	John Newman BEc, DipEd, DipT&CP Acting Director, Metropolitan & Strategic Planning
SES 2	John Hopman BMechEng (Hons), MBA, FIE Aust Acting Director, Transport Masterplanning & Infrastructure
SES 2	Bev Lange Acting Director, Transport Communications
SES 3	John Hall MechEngDip, Grad Cert SafetySc Executive Director Transport Safety Bureau
SES 5	Christine Thomas M Public Health, BSSc Acting Executive Director, Portfolio Corporate Business & Customer Service
SES 6	Allan Cook BBus (Accounting), Transport Admin Cert (Hons), FCPA Acting Executive Director, Transport Finance & Asset Management
SES 6	John Rogan BA, LLB (Hons), BCom, CPA, MPA Acting Deputy Director General & Executive Director Industry Reform
SES 7	Michael Deegan BCom Director General

Note: The Department is undergoing a functional realignment which has resulted in the creation/deletion of a number of Senior Executive Service positions that have now been advertised. It is planned that these positions will be filled in July 2001 and become fully functional.

SENIOR EXECUTIVE REMUNERATION AND PERFORMANCE PAY FOR PERMANENT SES OFFICERS LEVEL 5 AND ABOVE

Name:	Michael Deegan
Position:	Director General
Period in position:	Appointed 15 November 2000
Level:	SES Level 7
Total value of remuneration package (excluding performance pay):	\$274,800.00
Dollar value of remuneration paid as performance pay:	Nil
Summary of criteria for determining performance pay:	Not applicable

APPENDIX 11:

Human Resources and Industrial Relations Policies and Practices

The Department is committed to achieve its strategic goals by developing workplace structures and cultures that support all staff. This includes greater emphasis in training and career developmental opportunities and reviewing flexible working practices to promote a balance between work and non-work commitments.

The proposed re-establishment (in July 2001) of an in-house Employee Relations Unit will be an important initiative in supporting staff and managers.

Workplace, management and departmental-wide meetings that continue to be held on a regular basis are key forums for promoting harmonious working relationships between staff and managers. The Joint Consultative Committee is the key forum for achieving workplace reforms and is made up of management and staff representatives.

This collaborative approach has been successful in the recent re-alignment of staff and functions.

APPENDIX 12:

Occupational Health and Safety

The Department is committed to providing a safe and healthy working environment for staff and to ensure that effective Occupational Health and Safety policies and practices are developed and implemented. The Department's Occupational Health and Safety Committee plays a key role in promoting OH&S issues.

The Workplace Committee comprises of staff-elected representatives and management representatives. The Committee meets monthly and occupational issues are dealt with promptly.

Achievements for the OH&S Committee:

- Reconstituted OH&S Committee.
- Health and Safety Awareness campaign including promoting Kidney Awareness week.
- Contact made with workers compensation insurer and organised more regular review of claims and estimates.
- Conducted disability re-adjustment in workplace.
- Workplace inspection audits.
- Disseminating manual handling information to staff during office relocations.
- Planned strategy to address emergency evacuation procedures for fire wardens.

The Department's occupational health and safety performance for 2000/2001 is detailed below:

Number of work-related injuries:	2
Number of work-related illnesses:	0
Total time lost due to work-related injuries or illnesses	12.7 weeks
Number of worker's compensation claims	8
Number of prosecutions reported during the last financial year	0
Prosecutions under the Occupational Health and Safety Act 1983	0

APPENDIX 13:

Code Of Conduct

The Code of Conduct is included with job application packs, discussed at Induction and is available to staff via the Staff Resources Folder. The Code of Conduct reinforces the Department's expectation for ethical practice that all staff are accountable for in the performance of their duties.

APPENDIX 14: Disability Plan

Under the NSW Disability Services Act, 1993, the Department of Transport is the co-ordinating authority for action planning within the Transport Portfolio. The Department lodged its draft Action Plan with the Department of Ageing, Disability and Home Care in November 2000 and commenced a process by which action plans for State Transit and State Rail will be incorporated in a portfolio-wide disability action planning process. This will also include private public transport operators and the NSW Taxi Council.

The Department continues to identify objectives and initiatives for people with a disability and is aimed to ensure that our services, programs and facilities are as accessible to a person with a disability as they are to any other person.

The Department has established a range of facilities, such as TTY phones, to assist people with a disability. Adjustments to the workplace and modification of work practices and procedures have also been integrated to provide for the successful placement of visually and hearing impaired people.

APPENDIX 15: Equal Employment Opportunity

The Department's commitment to EEO has been demonstrated in all aspects of employment practice including recruitment/promotional opportunities, job evaluation, and access to training and development opportunities. As part of the consultative process for the Enterprise Agreement and Memorandum of Understanding, the Department's EEO policies and practices have been reviewed with a view for recommended enhancements.

Some EEO achievements include:

- Internal advertising for DTO 6 and below
- Ongoing support for the Spokeswomen's Program
- Target group members participated in workshops to develop the Department's Business Plans
- Target group members participation in Skillmax and Migrant Work Experience programs

The Department is aware of the need to increase Aboriginal and Torres Strait Islander people representation throughout the Department. To address this, the Department is finalising funding and employment details for a Aboriginal Employment Officer to work on projects to improve transport outcomes for Aboriginal people, particularly those living in rural and regional NSW.

APPENDIX 16:
Staff by Level and Employment Basis

Note: Total staff numbers increased by 21 persons following the establishment of the Taxi & Hire Car Bureau and the addition of staff and functions from the Olympic Roads and Transport Authority.

APPENDIX 17: **Ethnic Affairs Priorities Statement**

Ethnic affairs considerations have been fully integrated within the Department's business planning process. The purpose of the Department's Ethnic Affairs Priorities Statement (EAPS) is to improve service delivery and information to customers from ethnic communities.

APPENDIX 18: **Women's Action Plan**

The NSW Government is committed to providing the means and opportunities to achieve a just and fair community. The Government's 'Action Plan for Women' is an initiative to ensure that government policies, programs and services are inclusive and relevant to women.

Consistent with the whole-of-government approach to addressing women's issues and concerns, during the 2000/2001 period, the Department of Transport initiated actions to give effect to the goals of the 'Action Plan'.

To improve the health and quality of life of women in NSW, the Department:

- Continued the implementation of Action for Transport 2010, which features a number of projects to improve public transport accessibility for women. Planning for the Parramatta Rail Link and the Western Sydney Transitway Network is well underway, cross-regional bus routes have been implemented and specific policies have been implemented to encourage earlier provision of bus services in developing areas.
- Continues to analyse the Household Travel Survey data to understand the travel and employment patterns of women, which indicates that women are significant users of public transport, especially buses and are more likely to work on a part-time basis in local centres.

To reduce violence against women, the Department:

- Continued its administrative and logistic support to the Transport Safety Advisory Committee (TSAC). Working closely with the Department's Transport Safety Bureau, TSAC is an important mechanism through which women's needs and perceptions of public transport safety are being addressed. The Transport Safety Advisory Committee was established by the Government in 1996 to advise the Minister, the Director General and the Transport Safety Bureau on the community's needs and perceptions with regard to public transport safety.
- Maintained the same number of women representatives on the TSAC in line with the Government's commitment to increase the representation of women and people of a non-English speaking background on government boards and committees.
- Continued to support a number of projects to improve the safety of public transport users which, as significant users of public transport, are important for women. These include improving security on STA buses and taxis with the use of camera surveillance systems and the introduction of patrolled taxi ranks at selected sites in the CBD.

To promote a safe and equitable workplace responsive to all aspects of women's lives, the Department:

- Actively supports the Premier's Spokeswomen's program with three elected Spokeswomen located in the Newcastle, Wollongong and Sydney and Western Region Offices and the nomination of a Women's Liaison Officer. A particular initiative of the Department's Spokeswomen's program in the 2000/2001 financial year was the development of a formal mentoring program. One of the main objectives of the program was to provide career development information, training and support to all staff in the Department. The program provided opportunities for women in the Department to improve their skills through the roles of both mentor and mentoree.

- The Department also provides support to the women's professional association Women in Transport (WIT). Women in Transport is a community organisation of women working in the transport field – in the public and private sectors. The goal of the group is to provide support and encouragement for the professional development of women working in transport. The group organises regular lunchtime seminars, with speakers on current transport topics, and other activities.

To promote the position of women in all aspects of society, the Department has:

- Participated in the Department for Women's 'Getting More Women On Boards' Forums.

APPENDIX 19: Fraud and Corruption Prevention Program

The Department has in place policies and practices to assist employees make the most appropriate and ethical decisions in regard to the prevention of fraudulent and corrupt activity. This is achieved through a variety of ways including promoting the Code of Conduct and providing information to staff on internal and external contacts for support and information regarding making a disclosure.

Staff are informed of the Department's obligations under the Independent Commission Against Corruption Act, Ombudsman Act and the Protected Disclosures Act through the application and monitoring of the Fraud and Corruption Prevention Strategy.

APPENDIX 20: Disposal of Property

Nil return.

APPENDIX 21: Legislation Administered by the Minister [as at 30 June 2001]

Air Navigation Act 1938 No 9
Air Transport Act 1964 No 36
Border Railways (Grain Elevators) Amendment Act 1957 No 9
Broken Hill to South Australian Border Railway Agreement Act 1968 No 59
Civil Aviation (Carriers' Liability) Act 1967 No 64
Commercial Vessels Act 1979 No 41
Glenreagh to Dorrigo Railway (Closure) Act 1993 No 65
Marine (Boating Safety-Alcohol and Drugs) Act 1991 No 80
Marine Pilotage Licensing Act 1971 No 56
Marine Pollution Act 1987 No 299
Marine Safety Act 1998 No 121
Maritime Services Act 1935 No 47
National Rail Corporation (Agreement) Act 1991 No 82
Navigation Act 1901 No 60
Parking Space Levy Act 1992 No 32
Passenger Transport Act 1990 No 39
Ports Corporatisation and Waterways Management Act 1995 No 13
Rail Safety Act 1993 No 50
Railway Construction (East Hills to Campbelltown) Act 1983 No 111
Railway Construction (Maldon to Port Kembla) Act 1983 No 112
Road Transport (Driver Licensing) Act 1998 No 99
Tow Truck Industry Act 1998 No 111
Transport Administration Act 1988 No 109 (jointly with Minister for Roads).

In managing the properties vested with the Marine Ministerial Holding Corporation, the Department of Transport was also responsible for environmental planning and development approval under the *Environmental Planning and Assessment Act 1979*.

The *Marine Safety Act 1998* was assented to on 26 November 1998 but has not yet been proclaimed.

APPENDIX 22: Recycling

The Department continues to promote and encourage recycling in accordance with the Government's waste reduction policy to reduce landfill waste. The Department's Waste Reduction and Purchasing Plan has been distributed to all staff throughout the agency. All the photocopy paper used is either made from sugar cane with no virgin timber or is a mixture of 50 per cent recycled paper, 25 per cent cotton waste and 25 per cent virgin timber. The Department is moving towards recycling all used cartridges. There are also paper-recycling bins in all branches for staff use. Paper no longer suitable for official use is used in fax machines or printers for drafts and/or fax messages.

APPENDIX 23: Corporate Governance

The NSW Department of Transport reports to the Minister for Transport. An Executive Committee that meets weekly and consists of the Director General and the Senior Executive of the Department is responsible for implementing the Department's strategic directions and operational management. The Finance Committee, meeting fortnightly, operates as a subcommittee to the Executive and manages new financial issues and oversees the financial performance of the Department and the State's budget allocation to the portfolio.

Financial Reporting and Internal Controls

The Department has an annual internal audit plan, which is reviewed and updated each year. The current plan covers the period to June 2002. The plan has both a financial and operational emphasis and is prepared and implemented by the Department's internal auditors, Deloitte Touche Tohmatsu. Key areas of activity covered by the three-year plan include control procedures, financial management, purchasing functions, contracts and consultancy and scheme procedures.

As part of the Internal Audit Plan, Deloitte Touche Tohmatsu conducted an audit review of the Finance Branch in 2000–2001 for the purpose of gaining reasonable assurance that internal controls were adequate. The review indicated a satisfactory level of internal control procedures within the branch.

APPENDIX 24: Account Payment Performance

AGED ANALYSIS AT THE END OF EACH QUARTER

Quarter	Current – (within due date)	Less than 30 days overdue	Between 30 days and 60 days overdue	Between 60 days and 90 days overdue	More than 90 days overdue
September	1,267,360				
December	650,470				
March	231,021		95,000		
June	691,224				

ACCOUNTS PAID ON TIME WITHIN EACH QUARTER

	Total Accounts Paid On Time		Total Amount Paid	
	Target %	Actual %	\$	\$
September	100	100.0	488,037,396	488,037,396
December	100	99.5	542,123,973	544,487,103
March	100	99.5	462,562,182	464,666,361
June	100	99.8	706,567,187	707,662,259
				2,204,853,119

APPENDIX 25: Energy Management Policy

Corporate Commitment

The Department is committed to achieve savings in energy usage, a reduction of greenhouse gas emissions and sustained energy management principles. The Department now has four tenanted sites that purchase electricity from franchise electricity retailers.

Planning

Local energy coordinators have been appointed for each regional office. Energy use will be a major consideration when determining future accommodation changes.

Implementation

The Department's Energy Management Plan commenced. Staff have been requested to activate the energy saving feature on their computers to assist in saving energy. The Department has purchased new photocopiers that have also been programmed to shutdown after 6.00pm each night if they are not being used. The power saving feature is also active during the day.

Future Direction

The Department commissioned an energy audit of its 227 Elizabeth Street office. The results of this have been included on part of the tender documentation for the refurbishment of this office. It is expected that this project will be completed by January 2002.

APPENDIX 26: Annual Report Costs

Printing costs for the 2000/2001 Annual Report: 1000 copies at \$15.85 each.

APPENDIX 27: Judicial Decisions

Oliveri Transport Services Pty Ltd v The Director-General of the Department of Transport and anor, SC 50028/00, 14 February 2001 (unreported). Proceedings concerning Passenger Transport Act 1990. Subsequently reversed on appeal.

Caska v Director General of the New South Wales Department of Transport [2001] NSWSC 205, 28 March 2001 (unreported). Proceedings concerning the Passenger Transport Act 1990. Appeal brought by a taxi driver against a decision of a Magistrate to confirm the Department's decision to cancel his driver's authority. Proceedings Dismissed with costs.

APPENDIX 28: Subordinate Legislation

Parking Space Levy Regulation 1997 amended by Parking Space Levy Amendment Act 2000 no 27 (commenced 1 July 2000)

Passenger Transport (General) Regulation 2000 no 533 (commenced 1 September 2000)
Passenger Transport (Bus Services) Regulation 2000 no 531 (commenced 1 September 2000)
Passenger Transport (Ferry Services) Regulation 2000 no 532 (commenced 1 September 2000)

Transport Administration (General) Regulation no 547 (commenced 1 September 2000)
Transport Administration (Staff) Regulation no 548 (commenced 1 September 2000)

Rail Safety Amendment (Monorail) Regulation 2001 (commenced 9 February 2001).

APPENDIX 29: Privacy Act

Under Section 33(3)(a) and (b) of the Privacy & Personal Information Protection Act the following information is provided for inclusion in the Department's Annual Report.

In the year 1 July 2000 to 30 June 2001 the Department did not receive any applications for reviews under the Act.

The Department developed a privacy management plan, as required by the Act. A copy of the plan was sent to the Privacy Commissioner. No specific privacy codes of practice were identified as necessary to modify the application of the information protection principles or the public register provisions.

APPENDIX 30: Risk Management and Insurance

The Department's major risks are the security of its assets, operational and administrative risks and occupational health and safety. The Department's insurance activities are conducted within the framework of the NSW Treasury Managed Fund, presently managed by GIO Australia, including workers' compensation, motor vehicles, property, public liability, personal accident and professional indemnity. The workers' compensation insurance premium is monitored against benchmarks used by the fund. The Department also offers an Employee Assistance Program to assist employees with workplace and personal problems.

APPENDIX 31: Major Assets

Major assets are:

- Computer equipment and systems.
- Motor vehicles.
- Office equipment.

The Department does not own real property assets.

**APPENDIX 32:
Contracting and Market Testing Policy**

During 2000/2001, the following services were contracted out:

Human Resources Management
Records Management
Help Desk
Network Maintenance

The Department will be reviewing these contracts in terms of performance and value for money in 2001/2002.

**APPENDIX 33:
Consumer Response**

The Department maintains a Ministerial telephone service to field and coordinate responses to queries and complaints directed to the Minister. The Department coordinates all Ministerial correspondence for the Transport Portfolio. Trends are reported to the Minister on a regular basis. The Department also supports the 131 500 Integrated Transport Information Service (ITIS) that includes a complaints system for public and private transport operators in the metropolitan area and the Department of Transport Website.

**APPENDIX 34:
Research and Development**

The Department maintains a Transport Data Centre, which undertakes a continuous Household Travel Survey as a base for research and planning, as well as specific research projects. The Department conducts analysis and research to support its planning in relation to new transport service initiatives, particularly in developing areas. The Department also undertakes development of new technologies to enhance services. Examples of new system initiatives include Transport Information Management System (TIMS), ITIS and Integrated Ticketing.

**APPENDIX 35:
Response to Matters Raised by the Auditor-General**

The Audit Office conducted a performance review of the Department during the year. It tabled its report 'Management of Road Transport Regulation' in Parliament on 6 September 2000. Resulting from the Audit the Department was re-structured and strengthened in order to address many of the Audit Report recommendations, and to strengthen its ability to meet Government transportation objectives.
